Fraud Training

Thanks to your help we've come a long way in the last couple of years in advancing our fraud detection and prevention program. If any of your team has not yet completed the fraud training module published in [Optigo Academy](#), please do so. This module focuses on the requirements for reporting suspicious activity mandated in the *Multifamily Seller/Service Guide*, red flags you may encounter when working on a transaction, as well as some case studies based upon recent investigations Freddie Mac has conducted.
