Chris Alfaro
Director & Chief Appraiser
Multifamily Appraisals

As the new lead of the Freddie Mac Multifamily Appraisals Team, I'm excited to share our latest curriculum in Optigo Academy.

[Appraisals 101](#) covers important processes and requirements to support your work on Multifamily appraisal reports. I recommend you complete this course and share with those in your organization who order or review appraisal reports. If you can't access the course, [sign up for an account](#) today using your work email. It is free for those in the Optigo® network.

Additional appraisal resources are available on the [Originate & Underwrite webpage](#) under the Appraisals drop down.

If you have any questions or issues, please contact the [Multifamily Appraisal Team](#).

I look forward to working together and thank you for your support.
