STATEMENT REGARDING ASSUMPTIONS AS TO SECURITIES, PRICING ESTIMATES, AND OTHER INFORMATION

The information contained in this Term Sheet and in the attached materials (collectively, the “Information”) has been provided by one of Wells Fargo Securities, BofA Securities, Mizuho, Nomura, Performance Trust and Siebert Williams (each an “Initial Purchaser” and collectively, the “Initial Purchasers”), and is preliminary and subject to change. The Information does not include all of the information relating to the securities. As such, the Information may not reflect the impact of all structural characteristics of the securities. The assumptions underlying the Information, including structure and the composition of the Reference Pool (as defined below), may be modified from time to time to reflect changed circumstances. This document should be read in conjunction with the Preliminary Private Placement Memorandum dated October 4, 2024 (the “Preliminary PPM”). In the event of any inconsistency between the information included in this document and the Preliminary PPM, the Preliminary PPM shall be considered to supersede this document. This document and the Preliminary PPM will be superseded by any subsequent term sheets, “roadshow materials”, updated pool information and/or any subsequent preliminary private placement memorandum, as well as by a final private placement memorandum relating to the securities discussed herein (the “Final PPM”). The Preliminary PPM and Final PPM will contain data that is current as of their respective publication dates and after publication may no longer be complete or current. A copy of the Preliminary PPM and, after its publication, the Final PPM, may be obtained from the joint bookrunner, Wells Fargo Securities, by emailing a request to CMBSNOTICES@wellsfargo.com.

Capitalized terms used but not defined herein shall have the respective meanings given to them in the Preliminary PPM.

The securities are limited recourse obligations of Freddie Mac MSCR Trust MN9, payable solely from the Trust Assets. The securities do not represent obligations of any person or entity other than the Trust and do not represent a claim against any assets other than those of the Trust. The United States does not guarantee Freddie Mac’s payment obligations under the Collateral Administration Agreement or the Capital Contribution Agreement. Freddie Mac’s obligations under the Collateral Administration Agreement and the Capital Contribution Agreement are not debts or obligations of the United States or any agency of the United States, or backed by the full faith and credit of the United States. In addition, the United States does not guarantee the Notes or any interest or return on the Notes. The Notes are not debts or obligations of Freddie Mac or the United States or any agency of the United States, or backed by the full faith and credit of the United States. **The securities described herein will not be registered under the Securities Act of 1933, as amended (the “Securities Act”), or registered or qualified under any state or foreign securities laws, and the offered securities may be offered and sold only (i) in the United States to “qualified institutional buyers” within the meaning of Rule 144A under the Securities Act, or (ii) in “offshore transactions” to persons who are not “U.S. persons”, as such terms are defined in, and in accordance with, Regulation S under the Securities Act.**

The securities are linked to the credit risk of the Reference Obligation Percentages of a certain pool (the “Reference Pool”) of multifamily mortgage loans secured by multifamily properties (the “Reference Obligations” and each, a “Reference Obligation”) backing Freddie Mac multifamily participation certificates (“Multi PCs”) and Freddie Mac Structured Pass-Through Certificates (SPCs), Series K-G09 and Series K-526 (“Series K SPCs”), or that were originated pursuant to Freddie Mac’s small balance loan program and acquired by Freddie Mac from the related originator, but are not backed or secured by the Reference Pool. As of the Cut-off Date, the aggregate principal balance of the Reference Pool was approximately \$9,111,918,478 and is based, for each Reference Obligation, on the applicable Reference Obligation Percentage of its unpaid principal balance as of the Cut-off Date, and certain of the Reference Obligations represent *pari passu* portions of their respective whole loans. Interest and principal payable on the securities (including payments directed to interests in the securities) will be solely the obligation of the Trust, with the securities having limited recourse to the Trust Assets and being subordinate to the claims of Freddie Mac under the Collateral Administration Agreement and the Indenture.

The Information is preliminary and subject to final structural, accounting and legal review as well as final changes to the composition of the Reference Pool. The analyses, calculations and valuations contained within the Information are based on certain assumptions and data provided by third parties that may vary from the actual characteristics of the final Reference Pool. None of the Initial Purchasers, the Trust or Freddie Mac has verified these analyses, calculations or valuations. Material contained within the Information may also be based on assumptions regarding market

conditions and other matters as reflected herein and such assumptions may not coincide with actual market conditions or events. None of the Initial Purchasers, the Trust or Freddie Mac has undertaken to update or amend the Information since the date it was issued. More current information may be available publicly from other sources.

The securities are being offered when, as and if issued. In particular, you are advised that the securities and the Reference Pool are subject to modification or revision (including, among other things, the possibility that one or more classes of securities may be split, combined, or eliminated) at any time prior to issuance or availability of the Final PPM. Any decision to invest in the securities described herein should be made after reviewing the Preliminary PPM and the Final PPM, conducting such investigations as you deem necessary and consulting your own legal, accounting, and tax advisors in order to make an independent determination of the suitability and consequences of an investment in the securities.

The investment described in this Term Sheet is a complex financial product. The securities are complex instruments intended for sale only to sophisticated investors who understand and assume the risks involved with the purchase thereof. The risks associated with the securities may significantly reduce your expected yield and expected return of principal, and/or reduce your ability to sell or obtain market value information about the securities. You should independently evaluate the risks associated with the securities and consult your own professional advisors. These risks may include, but may not be limited to the following:

- The performance of the Reference Pool may be correlated with economic or other factors that may diminish the value of the securities.
- The performance of the Reference Pool and the value of the securities may be largely dependent on the quality of the origination, performance history, and servicing of the mortgage loans included in the Reference Pool.
- The value of the securities may be diminished by market conditions unrelated to the performance of the securities.

To the extent that you choose to utilize third-party predictive models in connection with considering an investment in the securities, neither Freddie Mac nor the Initial Purchasers makes any representation or warranty regarding the accuracy, completeness or appropriateness of any information or reports generated by such models, including, without limitation, whether the securities or the underlying collateral will perform in a manner consistent therewith.

This Term Sheet shall not constitute an underwriting commitment, an offer of financing, an offer to sell, or the solicitation of an offer to buy any securities described herein, and shall be subject to the Initial Purchasers' internal approvals. No transaction or services related thereto is contemplated without the Initial Purchasers' subsequent formal agreement. The Initial Purchasers are not acting as a fiduciary, advisor or agent.

Prior to investing in the securities, you should determine, without reliance upon any Initial Purchaser or its affiliates, the economic risks and merits, as well as the legal, tax and accounting characterizations and consequences of the transaction, and independently determine that you are able to assume such risks. In this regard, by acceptance of the Information, you acknowledge that you have been advised that (a) the Initial Purchasers are not in the business of providing legal, tax or accounting advice, (b) you understand that there may be legal, tax or accounting risks associated with the transaction, (c) you should receive legal, tax and accounting advice from advisors with appropriate expertise to assess relevant risks and (d) you should apprise senior management in your organization as to the legal, tax and accounting advice (and, if applicable, risks) associated with this transaction and the Initial Purchasers' disclaimers as to these matters.

The Information may not be forwarded or provided by you to any other person. An investor or potential investor in the securities (and each employee, representative, or other agent of such person or entity) may disclose to any and all persons, without limitation, the tax treatment and tax structure of the transaction, as defined in Regulations Section 1.6011-4, and all related materials of any kind, including opinions or other tax analyses, that are provided to such person or entity. However, such person or entity may not disclose any other information relating to this transaction unless such information is related to such tax treatment and tax structure.

SUMMARY

This summary highlights selected information and does not contain all of the information that you need to make your investment decision. It provides general, simplified descriptions of matters that, in some cases, are highly technical and complex. More detail is provided in the Preliminary PPM and the Final PPM and the other documents referred to herein. Do not rely upon this summary for a full understanding of the matters you need to consider for any potential investment in the Notes. To understand the terms of the offering of the Notes, carefully read the entire Preliminary PPM and Final PPM and the other documents referred to therein. You will find definitions of the capitalized terms used in this term sheet in the “Glossary of Significant Terms.” Capitalized terms not defined herein are defined in the Preliminary PPM and Final PPM.

Transaction Overview

The Reference Obligations will consist of the applicable Reference Obligation Percentage of each of 308 fixed rate mortgage loans, one floating rate mortgage loan and 63 hybrid ARM mortgage loans which have a fixed rate for an initial period and have an adjustable rate thereafter, secured by 381 multifamily properties. The Reference Obligations had an aggregate Reference Obligation Balance of approximately \$9,111,918,478 as of the close of business on October 1, 2024 (referred to in this Term Sheet as the “Cut-off Date”).

The Reference Pool will consist of (i) the applicable Reference Obligation Percentage of each of 266 underlying mortgage loans secured by one or more multifamily properties backing the related Multi PC (each such Reference Obligation, a “Multi PC Reference Obligation”), or are expected to back Multi PCs to be issued in the future, with an aggregate Reference Obligation Balance of approximately \$7,856,044,318 as of the Cut-off Date, (ii) the applicable Reference Obligation Percentage of each of 43 underlying mortgage loans secured by one or more multifamily properties backing the underlying certificates relating to the related Series K SPCs (such Reference Obligation, a “Series K Reference Obligation”) with an aggregate Reference Obligation Percentage Balance of approximately \$1,090,405,056 as of the Cut-off Date, and (iii) the applicable Reference Obligation Percentage of each of 63 underlying mortgage loans secured by one or more multifamily properties with an aggregate Reference Obligation Balance of approximately \$165,469,104 as of the Cut-off Date that were originated pursuant to Freddie Mac’s small balance loan program and acquired by Freddie Mac from the related originator (such Reference Obligation, a “SB Reference Obligation”). None of the SB Reference Obligations have been securitized, and Freddie Mac currently owns all of the SB Reference Obligations.

Certain Multi PC Reference Obligations are currently designated as “Social Bonds” within Freddie Mac’s Social Bonds Framework and certain Series K Reference Obligations are currently designated as “Green Bonds” within Freddie Mac’s Green Bonds Framework, published on Freddie Mac’s website at <https://mf.freddiemac.com/investors/impact-bonds.html#social-bonds>.

Certain Reference Obligations were made to the related underlying borrowers by various state and local governmental entities using the

MSCR NOTES, SERIES 2024-MN9

PRELIMINARY TERM SHEET

proceeds of the related tax-exempt loans (“TELS”) made by the applicable originators to such governmental entities, and a fiscal agent appointed by such governmental entities (as identified in Appendix A to the Preliminary PPM) may administer or service such Reference Obligations in certain circumstances. Any reference to the servicer of a Reference Obligation in this Term Sheet refers to such fiscal agent, if applicable, and with respect to any TEL, any reference to a “mortgage loan” in this Memorandum refers to such TEL.

Five Reference Obligations are subordinate in priority to the related Reference Obligations that are part of the Reference Pool and are senior mortgage loans. 10 of the Reference Obligations are subordinate in priority to a mortgage loan that is not part of the Reference Pool. Each subordinate Reference Obligation is cross-defaulted with the related senior mortgage loan and may be cross-defaulted with any related subordinate mortgage loan.

In addition, seven Reference Obligations are cross-collateralized and cross-defaulted with each other.

Two Reference Obligations, identified as “LTF-004 Loan #1” and “LTF-004 Loan #2” on Appendix A were originated pursuant to Freddie Mac’s Long-Term Financing product. The related long-term financing agreement permits the related current borrowers and their affiliates to obtain additional loans that are *pari passu* with such Reference Obligation in right of payment and are cross-collateralized and cross-defaulted with such Reference Obligation and permits such affiliates of the current borrowers to join the long-term financing agreement as additional borrowers from time to time. Such additional *pari passu* loans will not be part of the Reference Pool. In addition, subject to certain terms and conditions set forth in the long-term financing agreement, the borrowers of such Reference Obligations may add, remove and/or substitute the underlying mortgaged properties securing such Reference Obligation and any future *pari passu* loans. The borrowers are also permitted to convert any related *pari passu* loan from a floating-rate loan to a fixed-rate loan in accordance with the terms of the long-term financing agreement. The borrowers are required to prepay any portion of such Reference Obligation or *pari passu* loan (if any) if they fail to meet certain debt service coverage ratio or loan-to-value tests set forth in the long-term financing agreement in order to obtain additional *pari passu* loans, add, remove and/or substitute any underlying mortgaged properties and/or convert the interest rate of any related *pari passu* loan.

Pursuant to each related guaranty, Freddie Mac guarantees (or will guarantee upon the issuance of a related Multi PC in the case of certain Multi PC Reference Obligations that have not yet been securitized) the timely payment of the scheduled principal of and interest on (i) each Multi PC backed by a related Multi PC Reference Obligation and (ii) each class of the Series K SPCs that represents the undivided interest in the related class of underlying certificates backed by a related Series K Reference Obligation. Freddie Mac is entitled to receive certain fees

and to be reimbursed for the guarantee payments paid by Freddie Mac from payments received from the underlying borrowers.

All of the Reference Obligations are currently serviced by the related servicer pursuant to the Guide and in the case of the Multi PC Reference Obligations and the Series K Reference Obligations, the related underlying transaction documents. Freddie Mac has the right to replace the servicer of each Reference Obligation under the Guide and consent to certain servicing matters.

The Freddie Mac MSCR Trust MN9 will issue the Class M-1, Class M-2 and Class B-1 Notes on the Closing Date. The Notes will be issued at par and will be uncapped SOFR based floaters.

On the Closing Date, the Trust will issue the Notes. The Notes will pay interest at the rates and times, and the principal amount thereof will be payable on the dates, described under “— *Payments on the Notes*” below. The Notes will be scheduled to mature on the Scheduled Maturity Date, but will be subject to redemption prior thereto if certain events occur that result in the designation of an Early Termination Date.

The Trust will use the aggregate proceeds realized from the sale of the Notes to purchase Eligible Investments. From time to time, the Trust will acquire additional Eligible Investments with proceeds realized upon the maturity or redemption or other prepayment of existing Eligible Investments. On each Payment Date, the Trust will pay interest on the Notes from (i) investment earnings on the Eligible Investments, (ii) the Transfer Amount due from Freddie Mac with respect to such Payment Date under the Collateral Administration Agreement and (iii) the Index Component Contribution due from Freddie Mac with respect to such Payment Date under the Capital Contribution Agreement.

On the Closing Date, Freddie Mac will enter into the Collateral Administration Agreement and the Capital Contribution Agreement with the Trust and the Indenture Trustee.

Under the Collateral Administration Agreement, subject to the satisfaction of certain conditions, in connection with a Payment Date in any given calendar month Freddie Mac will be required to pay the Transfer Amount and Return Reimbursement Amount, if any, to the Trust and the Trust will be required to pay the Return Amount, if any, to Freddie Mac. Under the Capital Contribution Agreement, Freddie Mac will be required to pay the Capital Contribution Amount to the Trust. The Collateral Administration Agreement and Capital Contribution Agreement will permit netting of the Return Amount due on any Payment Date against the Transfer Amount, Return Reimbursement Amount and Capital Contribution Amount due on the Business Day immediately prior to such Payment Date. As a result, only one party (i.e., either the Trust or Freddie Mac) will actually make a payment to the other in connection with any Payment Date.

MSCR NOTES, SERIES 2024-MN9
FREDDIE MAC MSCR TRUST MN9

The Trust

The Freddie Mac MSCR Trust MN9 is a statutory trust created under the laws of the State of Delaware. The purpose of the Trust is limited to engaging in the following activities: (a) to enter into and perform its obligations under the Collateral Administration Agreement; (b) to enter into and perform its obligations under the Capital Contribution Agreement; (c) to enter into and perform its obligations under the Indenture; (d) to enter into and perform its obligations under the Investment Management Agreement; (e) to enter into and perform its obligations under the Administration Agreement; (f) to enter into and perform its obligations under the Account Control Agreement; (g) to enter into and perform its obligations under the Note Purchase Agreement; (h) to issue the Notes pursuant to the Indenture and the Owner Certificate pursuant to the Trust Agreement; (i) to enter into and perform its obligations under the other Basic Documents; (j) to invest the proceeds of the sale of the Notes in Eligible Investments and to reinvest the proceeds realized upon the maturity or redemption or other prepayment of Eligible Investments in additional Eligible Investments, from time to time, as contemplated in the Trust Agreement; and (k) to engage in such other activities, including entering into and performing its obligations under any other agreements that are necessary, suitable or convenient to accomplish the foregoing or are incidental thereto or connected therewith.

Trust Assets

The Trust Assets will be comprised of all right, title and interest of the Trust in, to and under, whether now owned or existing, or hereafter

MSCR NOTES, SERIES 2024-MN9
FREDDIE MAC MSCR TRUST MN9
PRELIMINARY TERM SHEET

acquired or arising, (a) the Basic Documents, (b) the Distribution Account and any amounts from time to time on deposit therein, (c) the Custodian Account and any amounts from time to time on deposit therein, (d) all Eligible Investments and all income realized from the investment thereof, (e) all accounts, general intangibles, chattel paper, instruments, documents, goods, money, investment property, deposit accounts, letters of credit and letter-of-credit rights, consisting of, arising from, or relating to, any of the foregoing, and (f) all proceeds, accessions, profits, income, benefits, substitutions and replacements, whether voluntary or involuntary, of and to any of the property of the Trust.

All of the Trust Assets, other than the Trust's rights under the Collateral Administration Agreement and the Capital Contribution Agreement, will be pledged to secure the Trust's payment obligations under the Collateral Administration Agreement. In addition, all of the Trust Assets will be pledged to secure the Trust's payment obligations to the Noteholders under the Indenture.

The Notes

On the Closing Date, the Trust will issue the Class M-1 Notes, Class M-2 Notes and Class B-1 Notes pursuant to the Indenture. See "*Description of the Notes*" below.

Closing Date

On or about October 16, 2024.

Scheduled Maturity Date

The Payment Date in October 2044.

Use of Proceeds

The Indenture Trustee will use the cash proceeds from the sale of the Notes to purchase Eligible Investments. See "*Eligible Investments*" below. The Indenture Trustee will use the earnings on and proceeds of the Eligible Investments to first make any payments of Return Amounts to Freddie Mac and then, together with any Transfer Amounts, Return Reimbursement Amounts and Capital Contribution Amounts paid by Freddie Mac to the Trust, to make payments of principal and interest on the Notes.

Ratings of the Notes

The Notes will not be rated on the Closing Date and Freddie Mac has no obligation to obtain ratings for the Notes in the future. The absence of ratings may adversely affect the ability of an investor to purchase or retain, or otherwise impact the liquidity, market value and regulatory characteristics of, the Notes.

The Offering

The Notes are being offered and sold only (i) in the United States to "qualified institutional buyers," as such term is defined in Rule 144A under the Securities Act, or (ii) in "offshore transactions" to persons that are not "U.S. persons," as such terms are defined in, and in accordance with, Regulation S under the Securities Act. See "*Notice to Investors*" in the Preliminary PPM and the Final PPM.

Transfer of the Notes

Transfers of interests in the Notes will be subject to certain restrictions as described in the Final PPM.

Risk Retention

Because the Trust will not issue any notes that correspond to the Class A-H, Class M-1H, Class M-2H, Class B-1H and Class B-2H Reference Tranches, Freddie Mac will initially retain the credit risk represented by such Classes of Reference Tranches. If Freddie Mac were to exercise its option to cause the Trust to retire any Notes that it owns, the Class Notional Amount of any of the Class M-1H, Class M-2H or Class B-1H Reference Tranches will be increased by the related Notes Retirement Amounts allocated to reduce the Class Notional Amount of the Class M-1, Class M-2 or Class B-1 Reference Tranche, respectively, in connection with the retirement of such Notes. Freddie Mac will, therefore, reacquire the credit risk with respect to the Reference Pool represented by such retired Notes. On the Closing Date:

- the Class M-1H Reference Tranche will represent no less than 5% of the combined initial Class Notional Amount of the Class M-1 and Class M-1H Reference Tranches,
- the Class M-2H Reference Tranche will represent no less than 5% of the combined initial Class Notional Amount of the Class M-2 and Class M-2H Reference Tranches, and
- the Class B-1H Reference Tranche will represent no less than 5% of the combined initial Class Notional Amount of the Class B-1 and Class B-1H Reference Tranches.

Freddie Mac will, pursuant to a letter (the “Risk Retention Letter”), irrevocably restrict its ability to transfer or hedge more than a 95% *pro rata* share of the credit risk on any of (i) the Class A-H Reference Tranche, (ii) the Class M-1 and Class M-1H Reference Tranches (in the aggregate), (iii) the Class M-2 and Class M-2H Reference Tranches (in the aggregate), (iv) the Class B-1 and Class B-1H Reference Tranches (in the aggregate), (v) the Class B-2H Reference Tranche or (vi) in the case of any further tranching of the Class A-H Reference Tranche or Class B-2H Reference Tranche, each such tranche into which the Class A-H Reference Tranche or Class B-2H Reference Tranche, as applicable, is so further tranching. See “UK Risk Retention Requirements” in the Preliminary PPM.

Freddie Mac may effect any transfers or hedges that are not so restricted, in the future, by issuing new series of MSCR notes and/or entering into MCIP transactions, that reference the Reference Pool related to the Notes of this transaction.

You are required to independently assess and determine the sufficiency of the information described in this Term Sheet and in the Preliminary PPM and Final PPM for the purposes of complying with any relevant requirements and none of Freddie Mac, the Indenture Trustee, the Owner Trustee, the Investment Manager, the Initial Purchasers or any other party makes any representations that the information described in this Term Sheet is sufficient under any circumstances for such purposes.

Although Freddie Mac will undertake to the Indenture Trustee to acquire and hold the Retained Interest pursuant to the Risk Retention

MSCR NOTES, SERIES 2024-MN9

PRELIMINARY TERM SHEET

Letter, none of Freddie Mac, the Issuer, the Initial Purchasers or any other party to the transaction intends to retain the Retained Interest, or take any other action, in a manner prescribed by the EU Securitization Regulation. In particular, no such party will take any action that may be required by any prospective investor or noteholder for the purposes of its compliance with any requirement of the EU Securitization Regulation. Consequently, the Notes are not a suitable investment for any person that is now or may in the future be subject to any requirement of the EU Securitization Regulation.

In addition, you should be aware, and in some cases are required to be aware, of the investor diligence requirements that apply under the EU Securitization Regulation and under the UK Securitization Regulation, in addition to any other regulatory requirements that are (or may become) applicable to you and/or with respect to your investment in the Notes.

Each prospective investor should consult with its own legal, accounting, regulatory and other advisors and/or its regulator before committing to acquire any Notes to determine whether, and to what extent, the information set out here, in the Preliminary PPM and in any investor reports provided in relation to the transaction is sufficient for the purpose of satisfying such requirements. See *“Risk Factors — Governance and Regulation — Legislative or Regulatory Actions Could Adversely Affect Our Business Activities and the Reference Pool”* in the Preliminary PPM.

Payments on the Notes

The Trust will be required to pay the Interest Payment Amount on the Notes in arrears on the 25th day of each calendar month, commencing in November 2024 and ending on the Maturity Date, including in the case of an Early Redemption Date, or if any such day is not a Business Day, on the first Business Day thereafter. On each Payment Date, the Interest Payment Amount for one or more Classes of Notes may be reduced as a result of Modification Events that reduce the yield on the Reference Obligations. See *“Description of the Notes — Hypothetical Structure and Calculations with respect to the Reference Tranches”*.

On each Payment Date prior to the Maturity Date on which certain tests related to minimum credit enhancement for the Class A-H Reference Tranche and delinquencies for the Reference Pool are satisfied, the Trust will be required to pay principal on each Class of Notes in an amount equal to the portion of the Senior Reduction Amount, Subordinate Reduction Amount and/or Supplemental Subordinate Reduction Amount, as applicable, allocated to reduce the Class Notional Amount of the Corresponding Class of Reference Tranche on such Payment Date. If any of such tests is not satisfied, the Subordinate Reduction Amount will be zero and principal payments may not be made on the Notes. With respect to any Class of Notes, the amount of principal that is due on any Payment Date will reflect any Tranche Write-up Amounts and Tranche Write-down Amounts with respect to the related Reporting Period, as applicable. See *“Description of the Notes — Hypothetical Structure and Calculations with respect to the*

Reference Tranches — Allocation of Senior Reduction Amount and Subordinate Reduction Amount”.

In addition, in connection with any Credit Event or Modification Event that results in any Tranche Write-down Amounts being allocated to any Class of Reference Tranche on a Payment Date, the Class Principal Balance of any Corresponding Class of Notes will be reduced by such amount allocated thereto. In addition, if any Tranche Write-down Amounts are allocated to a Class or Classes of Reference Tranches corresponding to a Class or Classes of Notes on any Payment Date, the Trust will owe Freddie Mac a Return Amount on such Payment Date equal to the aggregate amount of Tranche Write-down Amounts so allocated to reduce the Class Principal Balances of the Notes. See “*Description of the Notes — Hypothetical Structure and Calculations with respect to the Reference Tranches*” below. Any such reduction in the Class Principal Balance of any outstanding Class of Notes will result in a lower amount of interest payable on such Class of Notes on subsequent Payment Dates. See “*Prepayment and Yield Considerations — Credit Events and Modification Events*” in the Preliminary PPM and the Final PPM.

On the Maturity Date, the Trust will be required to pay the Class Principal Balance for each Class of Notes outstanding.

The Notes will be subject to mandatory redemption prior to the Scheduled Maturity Date upon the termination of the Collateral Administration Agreement. The Notes will also be subject to acceleration at any time upon the occurrence of an Indenture Event of Default.

On each Payment Date on which the Trust is required to pay a Return Amount, the Trust will allocate proceeds of the Eligible Investments to such payment before allocating any proceeds of the Eligible Investments to pay amounts owed on the Notes, including any Notes Retirement Amount payable by the Trust. This will coincide with Tranche Write-down Amounts being allocated to one or more Reference Tranches that correspond to one or more Classes of Notes in an aggregate amount equal to such Return Amount and the corresponding reduction of the Class Principal Balance of each such Class of Notes. See “*Status and Subordination*” below.

**Tranche Write-Down Amounts and
Prepayment and Yield
Considerations**

The Class Principal Balance of any outstanding Class of Notes will be reduced to the extent of any Tranche Write-down Amounts that are allocated to reduce the Class Notional Amount of the Corresponding Class of Reference Tranche. Any such reduction in principal will result in a corresponding reduction in the related Interest Payment Amount on subsequent Payment Dates.

The yield to maturity on the Notes will also be sensitive to any prepayment of the Reference Obligations, Reference Pool Removals and changes in the SOFR Rate. See “*Description of the Notes — Interest*” below.

Status and Subordination

The Notes and the obligation of the Trust to pay Return Amounts to Freddie Mac will be limited recourse obligations of the Trust. With respect to any Payment Date, a portion of the Eligible Investments will be liquidated in the amount necessary to pay the net Return Amount owed by the Trust to Freddie Mac, if any, the amount of principal owed by the Trust on the Notes, if any, and the Notes Retirement Amount owed by the Trust to Freddie Mac, if any. The proceeds of such liquidated Eligible Investments will be allocated to payment of the Return Amount, if any, owed to Freddie Mac with respect to such Payment Date before being allocated to payments of principal on the Notes and to payment of any Notes Retirement Amount. With respect to amounts payable on the Notes on each Payment Date, the Class M-1 Notes will be senior in right of payment to the Class M-2 Notes and the Class M-2 Notes will be senior in right of payment to the Class B-1 Notes.

Pursuant to the Indenture, the Notes will be subject to (i) principal amount write-downs as a result of Credit Events or Modification Events with respect to the Reference Obligations and (ii) interest amount reductions as a result of Modification Events with respect to the Reference Obligations. See “*Description of the Notes — Hypothetical Structure and Calculations with respect to the Reference Tranches — Allocation of Modification Loss Amount*” and “*— Allocation of Modification Gain Amount*”; “*Description of the Notes — Interest*”; “*Description of the Notes — Hypothetical Structure and Calculations with respect to the Reference Tranches — Allocation of Senior Reduction Amount and Subordinate Reduction Amount*”; “*Description of the Notes — Hypothetical Structure and Calculations with respect to the Reference Tranches — Allocation of Tranche Write-down Amounts*”; and “*Description of the Notes — Hypothetical Structure and Calculations with respect to the Reference Tranches — Allocation of Tranche Write-up Amounts*” herein.

Description of the Notes

Interest

Class Coupon. Each Class of Notes will bear interest, and solely for purposes of calculating allocations of any Modification Gain Amounts or Modification Loss Amounts, the Class B-2H Reference Tranche will be deemed to bear interest, based on the SOFR Rate for each Accrual Period and calculated pursuant to the applicable Class Coupon formula shown in [Table 1](#). The Class Coupon for each Class of Notes is subject to any applicable Class Coupon Minimum Rate shown in [Table 1](#). The initial Class Coupons that will apply to the first Accrual Period are also shown in [Table 1](#). The Indenture Trustee will calculate the Class Coupon for the Notes and the Class B-2H Reference Tranche for each Accrual Period (after the first Accrual Period) on the applicable SOFR Adjustment Date. The Indenture Trustee will determine the SOFR Rate for each Accrual Period (after the first Accrual Period) using the method described in the definition of “SOFR Rate”. For the first Accrual Period, the SOFR Rate will be determined by Freddie Mac on the pricing date of the Notes. If a Benchmark Transition Event and its

MSCR NOTES, SERIES 2024-MN9
FREDDIE MAC MSCR TRUST MN9
PRELIMINARY TERM SHEET

related Benchmark Replacement Date have occurred, the Administrator will determine an alternative Benchmark in accordance with the Benchmark Replacement provisions described under “*Description of the Notes — Interest — Benchmark Replacement Provisions*” herein.

Interest Payment. On each Payment Date through and including the Maturity Date, the Trust will use funds on deposit in the Distribution Account *first*, to pay the Return Amount, if any, due and payable to Freddie Mac, and *second*, to pay the applicable Interest Payment Amount on each outstanding Class of Notes. Interest will be calculated and payable on the basis of the actual number of days in the related Accrual Period and a 360-day year. Interest will be payable in arrears.

Benchmark Replacement Provisions. If Freddie Mac determines prior to the relevant Reference Time that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to the then-current Benchmark, the Benchmark Replacement will replace the then-current Benchmark for all purposes relating to the Notes in respect of all determinations on such date and for all determinations on all subsequent dates.

Benchmark Replacement Conforming Changes. In connection with the implementation of a Benchmark Replacement, Freddie Mac will have the right to make Benchmark Replacement Conforming Changes from time to time.

Decisions and Determinations. Any determination, decision or election that may be made by Freddie Mac pursuant to this Section titled “*Benchmark Replacement Provisions*,” including any determination with respect to administrative feasibility (whether due to technical, administrative or operational issues), a tenor, a rate, an adjustment or the occurrence or non-occurrence of an event, circumstance or date and any decision to take or refrain from taking any action or any selection, will be conclusive and binding absent manifest error, may be made in Freddie Mac’s sole discretion, and, notwithstanding anything to the contrary in the documentation relating to the Notes, will become effective without consent from any other party.

Neither the Indenture Trustee nor the paying agent will be under any obligation (i) to monitor, determine or verify the unavailability or cessation of SOFR (or other applicable Benchmark), or whether or when there has occurred, or to give notice to any other Transaction Party of the occurrence of, any Benchmark Transition Event or Benchmark Replacement Date, except to the extent the Administrator has provided notice to the Indenture Trustee and paying agent for inclusion in the Payment Date Statement in accordance with the terms of the Indenture, (ii) to select, determine or designate any alternative method, Benchmark Replacement or alternative index, or other successor or replacement alternative index, or whether any conditions to the designation of such a rate have been satisfied, (iii) to select, determine or designate any Benchmark Replacement Adjustment (as defined in the Preliminary PPM), or other modifier to any replacement or successor index, or (iv) to determine whether or what conforming

changes with respect to such alternative method, Benchmark Replacement or alternative index are necessary or advisable, if any, in connection with any of the foregoing.

Neither the Indenture Trustee nor the paying agent will be liable for any inability, failure or delay on its part to perform any of its duties set forth in the Indenture as a result of the unavailability of SOFR (or other applicable Benchmark (as defined in the Preliminary PPM)) and the absence of a designated Benchmark Replacement, including as a result of any inability, delay, error or inaccuracy on the part of any other Transaction Party, including without limitation the Administrator, in providing any direction, instruction, notice or information required or contemplated by the terms of the Indenture and reasonably required for the performance of such duties.

Principal

On the Maturity Date the Trust will pay 100% of the outstanding Class Principal Balance as of such date for each Class of Notes outstanding. On all other Payment Dates, the Trust will pay principal on each Class of Notes in an amount equal to the portion of the Senior Reduction Amount, Subordinate Reduction Amount and/or Supplemental Subordinate Reduction Amount, as applicable, allocated to reduce the Class Notional Amount of the Corresponding Class of Reference Tranche on such Payment Date pursuant to the terms of the hypothetical structure described under “— *Hypothetical Structure and Calculations with respect to the Reference Tranches — Allocation of Senior Reduction Amount and Subordinate Reduction Amount*” and “— *Allocation of Supplemental Subordinate Reduction Amount and Supplemental Senior Increase Amount*” below.

Reductions in Class Principal Balances of the Notes Due to Allocation of Tranche Write-down Amounts

On each Payment Date on or prior to the Maturity Date, the Class Principal Balance of each Class of Notes will be reduced without any corresponding payment of principal, by the amount of the reduction, if any, in the Class Notional Amount of the Corresponding Class of Reference Tranche due to the allocation of the Tranche Write-down Amount to such Class of Reference Tranche on such Payment Date pursuant to the terms of the hypothetical structure described under “— *Hypothetical Structure and Calculations with respect to the Reference Tranches*” below.

Increases in Class Principal Balances of the Notes Due to Allocation of Tranche Write-up Amounts

On each Payment Date on or prior to the Maturity Date, the Class Principal Balance of each Class of Notes will be increased by the amount of the increase, if any, in the Class Notional Amount of the Corresponding Class of Reference Tranche due to the allocation of Tranche Write-up Amounts to such Class of Reference Tranche on such Payment Date pursuant to the terms of the hypothetical structure described under “— *Hypothetical Structure and Calculations with respect to the Reference Tranches*” below.

Hypothetical Structure and Calculations with respect to the Reference Tranches

A hypothetical structure of Classes of Reference Tranches deemed to be backed by the Reference Pool has been established as indicated in the Transaction Diagram. The Indenture will reference this hypothetical structure to calculate, for each Payment Date, (i) Tranche Write-down

MSCR NOTES, SERIES 2024-MN9
FREDDIE MAC MSCR TRUST MN9
PRELIMINARY TERM SHEET

Amounts (or Tranche Write-up Amounts), which may result in reductions (or increases) in principal amounts on the Notes, (ii) any reduction or increase in Interest Payment Amounts on the Notes as a result of Modification Events on the Reference Obligations and (iii) principal payments to be made on the Notes by the Trust.

Allocation of Tranche Write-down Amounts

On each Payment Date on or prior to the Maturity Date, the Tranche Write-down Amount, if any, for such Payment Date, will be allocated, *first*, to reduce any Overcollateralization Amount for such Payment Date, until such Overcollateralization Amount is reduced to zero, and, *second*, to reduce the Class Notional Amount of each Class of Reference Tranche in the following order of priority, in each case until its Class Notional Amount is reduced to zero:

first, to the Class B-2H Reference Tranche;

second, to the Class B-1 and Class B-1H Reference Tranches, *pro rata* based on their Class Notional Amounts immediately prior to such Payment Date;

third, to the Class M-2 and Class M-2H Reference Tranches, *pro rata* based on their Class Notional Amounts immediately prior to such Payment Date;

fourth, to the Class M-1 and Class M-1H Reference Tranches, *pro rata* based on their Class Notional Amounts immediately prior to such Payment Date; and

fifth, to the Class A-H Reference Tranche, but only in an amount equal to the excess, if any, of the remaining unallocated Tranche Write-down Amount for such Payment Date over the Principal Loss Amount for such Payment Date attributable to clause (d) of the definition of “Principal Loss Amount” in the “*Glossary of Significant Terms*”.

Because the Class M-1, Class M-2 and Class B-1 Notes correspond to the Class M-1, Class M-2 and Class B-1 Reference Tranches, respectively, any Tranche Write-down Amounts allocated to such Classes of Reference Tranches pursuant to the hypothetical structure will result in a corresponding reduction in the Class Principal Balances of the Corresponding Classes of Notes, as applicable.

With respect to each Payment Date, the Class Notional Amount for the Class A-H Reference Tranche will be increased by the excess, if any, of the Tranche Write-down Amount for such Payment Date over the Credit Event Amount for such Payment Date.

Allocation of Tranche Write-up Amounts

On each Payment Date on or prior to the Maturity Date, the Tranche Write-up Amount, if any, for such Payment Date will be allocated to increase the Class Notional Amount of each Class of Reference Tranche in the following order of priority until the cumulative Tranche Write-up Amounts allocated to each such Class of Reference Tranche is equal to the cumulative Tranche Write-down Amounts previously

MSCR NOTES, SERIES 2024-MN9

PRELIMINARY TERM SHEET

allocated to such Class of Reference Tranche on or prior to such Payment Date:

first, to the Class A-H Reference Tranche;

second, to the Class M-1 and Class M-1H Reference Tranches, *pro rata* based on their Class Notional Amounts immediately prior to such Payment Date;

third, to the Class M-2 and Class M-2H Reference Tranches, *pro rata* based on their Class Notional Amounts immediately prior to such Payment Date;

fourth, to the Class B-1 and Class B-1H Reference Tranches, *pro rata* based on their Class Notional Amounts immediately prior to such Payment Date; and

fifth, to the Class B-2H Reference Tranche.

Because the Class M-1, Class M-2 and Class B-1 Notes correspond to the Class M-1, Class M-2 and Class B-1 Reference Tranches, respectively, any Tranche Write-up Amounts allocated to such Classes of Reference Tranches pursuant to the hypothetical structure will result in a corresponding increase in the Class Principal Balances of the Corresponding Classes of Notes, as applicable.

The Write-up Excess will be available as overcollateralization to offset any Tranche Write-down Amounts on future Payment Dates prior to such Tranche Write-down Amounts being allocated to reduce the Class Notional Amounts of the Reference Tranches.

Allocation of Modification Loss Amount

On each Payment Date on or prior to the Maturity Date, the Preliminary Principal Loss Amount, the Preliminary Tranche Write-down Amount, the Preliminary Tranche Write-up Amount and the Preliminary Class Notional Amount will be computed prior to the allocation of the Modification Loss Amount. The Modification Loss Amount, if any, for such Payment Date will be allocated to the Reference Tranches in the following order of priority:

first, to the Class B-2H Reference Tranche, until the amount allocated to the Class B-2H Reference Tranche is equal to the Class B-2H Reference Tranche Interest Accrual Amount for such Payment Date;

second, to the Class B-2H Reference Tranche, until the amount allocated to the Class B-2H Reference Tranche is equal to the Preliminary Class Notional Amount of the Class B-2H Reference Tranche for such Payment Date;

third, to the Class B-1 and Class B-1H Reference Tranches, *pro rata* based on their Class Notional Amounts immediately prior to such Payment Date, until the amount allocated to the Class B-1 Reference Tranche is equal to the Class B-1 Notes Interest Accrual Amount for such Payment Date;

MSCR NOTES, SERIES 2024-MN9
FREDDIE MAC MSCR TRUST MN9
PRELIMINARY TERM SHEET

fourth, to the Class B-1 and Class B-1H Reference Tranches, *pro rata* based on their Preliminary Class Notional Amounts for such Payment Date, until the aggregate amount allocated to the Class B-1 and Class B-1H Reference Tranches is equal to the aggregate of the Preliminary Class Notional Amounts of the Class B-1 and Class B-1H Reference Tranches for such Payment Date;

fifth, to the Class M-2 and Class M-2H Reference Tranches, *pro rata* based on their Class Notional Amounts immediately prior to such Payment Date, until the amount allocated to the Class M-2 Reference Tranche is equal to the Class M-2 Notes Interest Accrual Amount for such Payment Date;

sixth, to the Class M-2 and Class M-2H Reference Tranches, *pro rata* based on their Preliminary Class Notional Amounts for such Payment Date, until the aggregate amount allocated to the Class M-2 and Class M-2H Reference Tranches is equal to the aggregate of the Preliminary Class Notional Amounts of the Class M-2 and Class M-2H Reference Tranches for such Payment Date;

seventh, to the Class M-1 and Class M-1H Reference Tranches, *pro rata* based on their Class Notional Amounts immediately prior to such Payment Date, until the amount allocated to the Class M-1 Reference Tranche is equal to the Class M-1 Notes Interest Accrual Amount for such Payment Date; and

eighth, to the Class M-1 and Class M-1H Reference Tranches, *pro rata* based on their Preliminary Class Notional Amounts for such Payment Date, until the aggregate amount allocated to the Class M-1 and Class M-1H Reference Tranches is equal to the aggregate of the Preliminary Class Notional Amounts of the Class M-1 and Class M-1H Reference Tranches for such Payment Date.

For the avoidance of doubt and without duplication of the allocation of Tranche Write-down Amounts, if any, for such Payment Date, with respect to each Payment Date the Class Notional Amount for the Class A-H Reference Tranche will be increased by the sum of amounts included in the *second*, *fourth*, *sixth* and *eighth* priorities above. Any amounts allocated to the Class M-1, Class M-2 or Class B-1 Reference Tranches in the *seventh*, *fifth* or *third* priority above on any Payment Date will result in a corresponding reduction of the Interest Payment Amount of the Class M-1, Class M-2 or Class B-1 Notes, as applicable, for such Payment Date. The Class B-2H Reference Tranche is assigned a Class Coupon solely for purposes of calculations in connection with the allocation of Modification Loss Amounts to the Mezzanine Reference Tranches and Junior Reference Tranches, and any such amounts allocated in the *first* or *second* priority above will not result in a corresponding reduction of the Interest Payment Amount or Class Principal Balance of any Class of Notes. Any amounts allocated to any of the Reference Tranches in the *second*, *fourth*, *sixth* or *eighth* priority

MSCR NOTES, SERIES 2024-MN9

above will be included in the Principal Loss Amount for the related Payment Date.

Allocation of Modification Gain Amount

On each Payment Date on or prior to the Maturity Date, the Preliminary Principal Loss Amount, the Preliminary Tranche Write-down Amount, the Preliminary Tranche Write-up Amount and the Preliminary Class Notional Amount will be computed prior to the allocation of the Modification Gain Amount. The Modification Gain Amount, if any, for such Payment Date will be allocated to the Reference Tranches in the following order of priority:

first, to the Class M-1 and Class M-1H Reference Tranches, *pro rata* based on their Class Notional Amounts immediately prior to such Payment Date, until the amount allocated to the Class M-1 Reference Tranche is equal to the cumulative amount of unreimbursed Modification Loss Amounts allocated to reduce the Interest Payment Amount on the Class M-1 Notes on all prior Payment Dates;

second, to the Class M-2 and Class M-2H Reference Tranches, *pro rata* based on their Class Notional Amounts immediately prior to such Payment Date, until the amount allocated to the Class M-2 Reference Tranche is equal to the cumulative amount of unreimbursed Modification Loss Amounts allocated to reduce the Interest Payment Amount on the Class M-2 Notes on all prior Payment Dates;

third, to the Class B-1 and Class B-1H Reference Tranches, *pro rata* based on their Class Notional Amounts immediately prior to such Payment Date, until the amount allocated to the Class B-1 Reference Tranche is equal to the cumulative amount of unreimbursed Modification Loss Amounts allocated to reduce the Interest Payment Amount on the Class B-1 Notes on all prior Payment Dates;

fourth, to the Class B-2H Reference Tranche until the amount allocated to the Class B-2H Reference Tranche is equal to the cumulative amount of unreimbursed Modification Loss Amounts allocated to reduce the Interest Accrual Amount on the Class B-2H Reference Tranche on all prior Payment Dates; and

fifth, to the most subordinate Classes of Reference Tranches outstanding, *pro rata* based on their Class Notional Amounts immediately prior to such Payment Date.

Any amounts allocated to the Class M-1, Class M-2 or Class B-1 Reference Tranches above on any Payment Date will result in a corresponding increase of the Interest Payment Amount of the Class M-1, Class M-2 or Class B-1 Notes, as applicable, for such Payment Date.

Allocation of Senior Reduction Amount and Subordinate Reduction Amount

On each Payment Date prior to the Maturity Date, after allocation of the Tranche Write-down Amount or Tranche Write-up Amount, if any, for such Payment Date as described under “— *Allocation of Tranche Write-down Amounts*” and “— *Allocation of Tranche Write-up*

MSCR NOTES, SERIES 2024-MN9
FREDDIE MAC MSCR TRUST MN9
PRELIMINARY TERM SHEET

Amounts” above, the Senior Reduction Amount will be allocated to reduce the Class Notional Amount of each Class of Reference Tranche in the following order of priority, in each case until its Class Notional Amount is reduced to zero:

first, to the Class A-H Reference Tranche;

second, to the Class M-1 and Class M-1H Reference Tranches, *pro rata* based on their Class Notional Amounts immediately prior to such Payment Date;

third, to the Class M-2 and Class M-2H Reference Tranches, *pro rata* based on their Class Notional Amounts immediately prior to such Payment Date;

fourth, to the Class B-1 and Class B-1H Reference Tranches, *pro rata* based on their Class Notional Amounts immediately prior to such Payment Date; and

fifth, to the Class B-2H Reference Tranche.

On each Payment Date prior to the Maturity Date, after allocation of the Tranche Write-down Amount or Tranche Write-up Amount, if any, for such Payment Date as described under “— *Allocation of Tranche Write-down Amounts*” and “— *Allocation of Tranche Write-up Amounts*” above, and after allocation of the Senior Reduction Amount, the Subordinate Reduction Amount will be allocated to reduce the Class Notional Amount of each Class of Reference Tranche in the following order of priority, in each case until its Class Notional Amount is reduced to zero:

first, to the Class M-1 and Class M-1H Reference Tranches, *pro rata* based on their Class Notional Amounts immediately prior to such Payment Date;

second, to the Class M-2 and Class M-2H Reference Tranches, *pro rata* based on their Class Notional Amounts immediately prior to such Payment Date;

third, to the Class B-1 and Class B-1H Reference Tranches, *pro rata* based on their Class Notional Amounts immediately prior to such Payment Date;

fourth, to the Class B-2H Reference Tranche; and

fifth, to the Class A-H Reference Tranche.

Because the Class M-1, Class M-2 and Class B-1 Notes correspond to the Class M-1, Class M-2 and Class B-1 Reference Tranches, respectively, any Senior Reduction Amount and/or Subordinate Reduction Amount, as applicable, allocated to the Class M-1, Class M-2 or Class B-1 Reference Tranche pursuant to the hypothetical structure will result in a requirement of the Trust to make a corresponding payment of principal to the Class M-1, Class M-2 or Class B-1 Notes, as applicable.

Allocation of Supplemental Subordinate Reduction Amount and Supplemental Senior Increase Amount

On each Payment Date prior to the Maturity Date, after allocation of the Tranche Write-down Amount or Tranche Write-up Amount, if any, for such Payment Date as described under “— Allocation of Tranche Write-down Amounts” and “— Allocation of Tranche Write-up Amounts” above, and after allocation of the Senior Reduction Amount or Subordinate Reduction Amount, if any, for such Payment Date as described under “— Allocation of Senior Reduction Amount and Subordinate Reduction Amount” above, the Supplemental Subordinate Reduction Amount, if any, for such Payment Date will be allocated to reduce the Class Notional Amount of each Class of Reference Tranche in the following order of priority, in each case until its Class Notional Amount is reduced to zero:

first, to the Class M-1 and Class M-1H Reference Tranches, *pro rata* based on their Class Notional Amounts immediately prior to such Payment Date;

second, to the Class M-2 and Class M-2H Reference Tranches, *pro rata* based on their Class Notional Amounts immediately prior to such Payment Date;

third, to the Class B-1 and Class B-1H Reference Tranches, *pro rata* based on their Class Notional Amounts immediately prior to such Payment Date;

fourth, to the Class B-2H Reference Tranche; and

fifth, to the Class A-H Reference Tranche.

Because the Class M-1, Class M-2 and Class B-1 Notes correspond to the Class M-1, Class M-2 and Class B-1 Reference Tranches, respectively, any portion of the Supplemental Subordinate Reduction Amount that is allocated to the Class M-1, Class M-2 or Class B-1 Reference Tranche will result in a corresponding reduction in the Class Principal Balance of the Class M-1, Class M-2 or Class B-1 Notes, as applicable.

Simultaneously, on each Payment Date on or prior to the Maturity Date, after allocation of the Senior Reduction Amount, the Subordinate Reduction Amount, any Tranche Write-down Amounts and any Tranche Write-up Amounts, the Supplemental Senior Increase Amount, if any, for such Payment Date will be allocated to increase the Class Notional Amount of the Class A-H Reference Tranche.

Redemption and Acceleration

The Notes will be subject to mandatory redemption prior to the Scheduled Maturity Date upon the termination of the Collateral Administration Agreement. The Notes will also be subject to acceleration at any time upon the occurrence of an Indenture Event of Default.

Eligible Investments

The Trust will use the proceeds of the sale of the Notes to purchase Eligible Investments. From time to time, the Trust will acquire additional Eligible Investments with the proceeds realized upon the maturity or redemption or other prepayment of existing Eligible

MSCR NOTES, SERIES 2024-MN9
FREDDIE MAC MSCR TRUST MN9
PRELIMINARY TERM SHEET

Investments. At the time of purchase, Eligible Investments will be required to satisfy the criteria set forth in the definition of “Eligible Investments” in the “*Glossary of Significant Terms*”. Eligible Investments will be required to mature within 60 days (or more in the case of investments satisfying clause (b) of the definition of “Eligible Investments” in the “*Glossary of Significant Terms*”) of the date on which they were purchased. Any proceeds received from the maturity of Eligible Investments will be used to pay principal and interest on the Notes and any unused proceeds amounts will be reinvested in additional Eligible Investments as described herein.

**Collateral Administration Agreement
and Capital Contribution Agreement**

On the Closing Date, Freddie Mac will enter into the Collateral Administration Agreement with the Trust and the Indenture Trustee pursuant to which the Trust will provide credit protection to Freddie Mac with respect to the Reference Pool.

Under the Collateral Administration Agreement, Freddie Mac will be required to pay to the Trust the Transfer Amount and Return Reimbursement Amount, if any, on the Business Day prior to each Payment Date.

Under the Collateral Administration Agreement, the Trust will be required, subject to the satisfaction of certain conditions, to pay the Return Amount to Freddie Mac based on the Credit Events and Modification Events that occurred during the related Reporting Period.

On the Closing Date, Freddie Mac will also enter into the Capital Contribution Agreement with the Trust and the Indenture Trustee. Under the Capital Contribution Agreement, Freddie Mac will be required to pay to the Trust the Capital Contribution Amount, if any, on the Business Day prior to each Payment Date.

The Collateral Administration Agreement and Capital Contribution Agreement will permit netting of the Return Amount owed to Freddie Mac by the Trust on any Payment Date against any Transfer Amount, Return Reimbursement Amount and Capital Contribution Amount owed to the Trust by Freddie Mac on the Business Day immediately prior to such Payment Date. As a result, only one party (i.e., either the Trust or Freddie Mac) will actually make a payment to the other in connection with any Payment Date.

After the payment of any Notes Retirement Amount on any Payment Date, the amounts of any Return Amount, Transfer Amount and Return Reimbursement Amount owed under the terms of the Collateral Administration Agreement for succeeding Payment Dates will be reduced, as applicable, as a result of the adjustment in the Class Notional Amount of any Class of Reference Tranche corresponding to such retired Notes in connection with the payment of such Notes Retirement Amount.

Reference Pool Removals

A Reference Obligation will be removed from the Reference Pool upon the occurrence of any of the following: (1) the Reference Obligation

becomes a Credit Event Reference Obligation; (2) the Reference Obligation is paid in full; (3) the lender who sold the Reference Obligation to Freddie Mac repurchases the Reference Obligation from Freddie Mac or enters into an agreement with Freddie Mac providing for indemnification in full with respect to the Reference Obligation; (4) the Reference Obligation is fully defeased pursuant to the terms of the related loan documents; (5) Freddie Mac determines that the information in Appendix A to the Preliminary PPM and Final PPM, with respect to any Reference Obligation, is untrue, incomplete or inaccurate in any material respect; or (6) (a) the related mortgaged property is in an area impacted by a hurricane that makes landfall in the United States prior to the Closing Date, (b) the related mortgaged property is located in a presidentially-declared major disaster area as a result of such hurricane, (c) the related mortgaged property is located in an area for which FEMA authorizes individual assistance to individuals and households as a result of such hurricane, (d) at any time through the last day of the sixth full calendar month immediately following the first date that such hurricane makes landfall in the United States (i.e., excluding the month in which such landfall occurs), the related servicer reports that such Reference Obligation has entered disaster forbearance as a result of such hurricane and (e) such Reference Obligation subsequently becomes delinquent (excluding any payments missed as part of such forbearance period).

Preliminary Eligibility Criteria

Any mortgages that Freddie Mac purchases must satisfy the mortgage purchase standards that are contained in the Freddie Mac Act. These standards require Freddie Mac to purchase mortgages of a quality, type and class that meet generally the purchase standards imposed by private institutional mortgage investors. This means the mortgages must be readily marketable to institutional mortgage investors. In addition to the standards in the Freddie Mac Act, which Freddie Mac cannot change, Freddie Mac has established its own multifamily mortgage purchase standards, credit, appraisal and underwriting guidelines and servicing policies and procedures. These are in the Guide. The Guide also contains certain forms related to Freddie Mac's mortgage purchases.

Servicing Practices

Freddie Mac generally supervises servicing of the mortgages according to the policies and procedures in the Guide. Each servicer is required to perform all services and duties customary to the servicing of multifamily mortgages either directly or through approved subservicers. Servicers service the mortgages, either directly or through approved subservicers, and receive fees for their services. Freddie Mac monitors a servicer's performance through periodic and special reports and inspections to ensure it complies with its obligations.

Notes Acquired by Freddie Mac

Freddie Mac may, from time to time, purchase or otherwise acquire some or all of any Class of Notes at any price or prices, in the open market or otherwise. Any Notes of a particular Class Freddie Mac owns will have an equal and proportionate benefit under the provisions of the

MSCR NOTES, SERIES 2024-MN9

Indenture to Notes of the same Class held by other Holders, without preference, priority or distinction. However, in determining whether the required percentage of the outstanding Class Principal Balance of the Notes have given any required demand, authorization, notice, consent or waiver under the Indenture, any Notes owned by Freddie Mac or any person or entity directly or indirectly controlling or controlled by Freddie Mac or under direct or indirect common control with Freddie Mac will be disregarded and deemed not to be outstanding. Any Notes that Freddie Mac holds may be held as investment and may be sold from time to time in Freddie Mac's sole discretion. Pursuant to the Indenture, Freddie Mac has the right to cause any Notes it acquires to be retired by the Trust.

Legal Status

The Notes will be issued by the Trust. The Notes will have limited recourse to the Trust Assets, subordinate to Freddie Mac's claims under the Collateral Administration Agreement and the Indenture. The Notes will be obligations of the Trust only. **The United States does not guarantee the Notes or any interest or return on the Notes. The Notes are not debts or obligations of Freddie Mac or the United States or any agency of the United States, or backed by the full faith and credit of the United States.**

Certain Relationships and Affiliations

Freddie Mac will be the Sponsor and Administrator and will pay the Fees and Expenses of the Transaction Parties and the Trust.

Freddie Mac guarantees (or will guarantee upon the issuance of a related Multi PC in the case of certain Multi PC Reference Obligations that have not yet been securitized) the timely payment of the scheduled principal and interest on any Multi PCs that are backed by the Reference Obligations and each Series K SPC. Freddie Mac's obligations under such guarantees are not collateralized.

These roles and Freddie Mac's relationships with the related sellers and servicers of the Reference Obligations may give rise to conflicts of interest, as further described in the Preliminary PPM and Final PPM.

Indenture Event of Default

Each of the following constitutes an "Indenture Event of Default":

- (a) a default in the payment, when due and payable, of interest due on any Note to the extent payable, as described under "*Description of the Notes — Interest*", "*— Allocation of Modification Gain Amount*" and "*— Allocation of Modification Loss Amount*" herein, which default continues for a period of 30 days;
- (b) a default in the payment of the Class Principal Balance of any Note on the Maturity Date, to the extent payable, as described under "*Description of the Notes — Principal*", "*— Allocation of Tranche Write-down Amounts*", "*— Allocation of Tranche Write-up Amounts*" and "*— Allocation of Modification Loss Amount*" herein, or in the case of a default in payment due to an administrative error or omission by the Indenture Trustee or any paying agent, which default continues for a period of 30 days;

- (c) a default in the performance, or breach, of any other covenant of the Trust under the Indenture or any representation or warranty of the Trust made in the Indenture or in any certificate or other writing delivered pursuant thereto or in connection therewith proves to be incorrect in any material respect when made and the continuation of such default or breach for a period of 30 days after the Trust has notice thereof by (i) a responsible officer of the Indenture Trustee, (ii) Freddie Mac (except in the case of a Freddie Mac Default) or (iii) the Holders of not less than a majority of the aggregate outstanding Class Principal Balance of the Notes;
- (d) an involuntary Proceeding shall be commenced or an involuntary petition shall be filed seeking (i) winding up, liquidation, reorganization or other relief in respect of the Trust or its debts, or of a substantial part of its assets, under any bankruptcy, insolvency, receivership or similar law now or hereafter in effect or (ii) the appointment of a receiver, trustee, custodian, sequestrator, conservator or similar official for the Trust or for a substantial part of its assets, and, in any such case, such proceeding or petition shall continue undismissed for 60 days; or an order or decree approving or ordering any of the foregoing shall be entered;
- (e) the Trust shall (i) voluntarily commence any Proceeding or file any petition seeking winding up, liquidation, reorganization or other relief under any bankruptcy, insolvency, receivership or similar law now or hereafter in effect, (ii) consent to the institution of, or fail to contest in a timely and appropriate manner, any proceeding or petition described in section (d) above, (iii) apply for or consent to the appointment of a receiver, trustee, custodian, sequestrator, conservator or similar official for the Trust or for a substantial part of its assets, (iv) file an answer admitting the material allegations of a petition filed against it in any such Proceeding, (v) make a general assignment for the benefit of creditors or (vi) take any action for the purpose of effecting any of the foregoing;
- (f) the Indenture Trustee ceases to have a valid and enforceable first-priority security interest in the Collateral or such security interest proves not to have been a valid or enforceable first-priority security interest when granted or purported to have been granted; or
- (g) it becomes unlawful for the Trust to perform or comply with any of its obligations under the Notes, the Indenture or any other transaction document to which it is a party;

provided, however, that no Indenture Event of Default with respect to any Notes shall occur under either *clause (a) or (b)* above if the Collateral has been realized upon in full and all amounts available to be paid in respect of such Collateral have been distributed in accordance with the provisions of the Indenture.

Rights Upon an Indenture Event of Default

Acceleration and Maturity; Rescission and Annulment. If an Indenture Event of Default occurs and is continuing (other than an Indenture Event of Default described in *clause (d), (e), (f) or (g)* above), the Indenture Trustee, if a responsible officer thereof has actual knowledge of or has received notice of such Indenture Event of Default, may, or at the direction of not less than a majority of the aggregate outstanding Class Principal Balance of the Notes will, declare the Class Principal Balance of all the Notes to be due and payable on the next succeeding Payment Date, and upon any such declaration such principal, together with all accrued and unpaid Interest Payment Amounts on the Notes, and other amounts payable under the Indenture, will become due and payable on the next succeeding Payment Date. If an Indenture Event of Default described in *clause (d), (e), (f) or (g)* above occurs and is continuing, the Class Principal Balance of all of the Notes, together with all accrued and unpaid Interest Payment Amounts on the Notes and other amounts payable under the Indenture, will automatically become due and payable without any declaration or other act on the part of the Indenture Trustee or any Holder.

At any time after such a declaration of acceleration of maturity has been made (except with respect to an Indenture Event of Default described in *clause (d), (e), (f) or (g)* above) and before a judgment or decree for payment of the money due has been obtained by the Indenture Trustee as provided in the Indenture, a majority of the aggregate outstanding Class Principal Balance of the Notes, by written notice to the Indenture Trustee, may rescind and annul such declaration and its consequences if:

(i) the Trust has paid or deposited with the Indenture Trustee a sum sufficient to pay:

(A) all overdue amounts payable on or in respect of the Notes (other than amounts due solely as a result of the acceleration),

(B) to the extent that payment of interest on such amount is lawful, interest on such overdue amounts at a rate equal to the applicable Class Coupon,

(C) any accrued and unpaid amounts payable by the Trust pursuant to the Collateral Administration Agreement, and

(ii) the Indenture Trustee has determined that all Indenture Events of Default, other than the nonpayment of the principal or of interest on the Notes that have become due solely by such acceleration, have been cured and a majority of the aggregate outstanding Class Principal Balance of the Notes, by written notice to the Indenture Trustee, has agreed with such determination or waived such Indenture Events of Default.

No such rescission and annulment will affect any subsequent Indenture Event of Default or impair any right consequent thereon.

Collection of Indebtedness and Suits for Enforcement by Indenture Trustee. If an Indenture Event of Default occurs and is continuing, the Indenture Trustee at the direction of a majority of the aggregate

outstanding Class Principal Balance of the Notes will proceed to protect and enforce its rights and the rights of the Secured Parties by such appropriate Proceedings as such Holders direct, whether for the specific enforcement of any covenant or agreement in the Indenture or in aid of the exercise of any power granted therein, or to enforce any other proper remedy or legal or equitable right vested in the Indenture Trustee by the Indenture or by law; provided, however, that no such Proceedings may be instituted with respect to the Eligible Investments or any proceeds thereof unless an Indenture Event of Default under *clause (f)* above has occurred and is continuing and, provided further, that the Indenture Trustee will have no duty or obligation to take such action unless such Holders offer indemnification satisfactory to the Indenture Trustee. Absent receipt of any such written direction by a responsible officer of the Indenture Trustee, the Indenture Trustee will have no duty or obligation to take any action in respect of an Indenture Event of Default. In any Proceedings brought by the Indenture Trustee on behalf of the Holders, the Indenture Trustee will be held to represent all the Holders of the Notes and it will not be necessary to make any Holder a party to any such proceeding.

Remedies; Liquidation of Collateral. If an Indenture Event of Default occurs and is continuing, and the Notes have been declared due and payable and such declaration and the consequences of such Indenture Event of Default and acceleration have not been rescinded and annulled, the Trust agrees that the Indenture Trustee will, upon direction of a majority of the aggregate outstanding Class Principal Balance of the Notes, to the extent permitted by applicable law, exercise one or more of the following rights, privileges and remedies:

(i) institute Proceedings for the collection of all amounts then payable on the Notes or otherwise payable under the Indenture, whether by declaration or otherwise, enforce any judgment obtained, and collect from the Collateral any monies adjudged due;

(ii) take the actions described under “—*Application of Proceeds*” below;

(iii) exercise any remedies of a secured party under the UCC and take any other appropriate action to protect and enforce the rights and remedies of the Secured Parties under the Indenture; and

(iv) exercise any other rights and remedies that may be available at law or in equity.

If the Notes have been declared due and payable as described above, the Indenture Trustee will give notice under the Collateral Administration Agreement and the Capital Contribution Agreement of the designation of an Early Termination Date (if the Collateral Administration Agreement and the Capital Contribution Agreement have not yet terminated) and demand payment from Freddie Mac of any amounts due under the Collateral Administration Agreement and the Capital Contribution Agreement (and, if Freddie Mac fails to make any such payment, take the actions described in “— *Application of Proceeds — Procedures Relating to Delayed Payments*” below). Any amounts so paid by Freddie Mac will be held in the Distribution

Application of Proceeds

If an Indenture Event of Default occurs and is continuing, and the Notes have been declared due and payable and such declaration and the consequences of such Indenture Event of Default and acceleration have not been rescinded and annulled, the Holders of a majority of the aggregate outstanding Class Principal Balance of the Notes may direct the Indenture Trustee to (a) withdraw all proceeds of Eligible Investments for the related Payment Date held in the Distribution Account, (b) liquidate all Collateral (other than Collateral which is held in the form of cash) held in the Custodian Account into cash as provided in the Indenture, (c) give notice of a Freddie Mac Default or the occurrence of an event described in clause (vi) of the definition of “Early Termination Date” in the “*Glossary of Significant Terms*”, as applicable, in accordance with the Indenture, (d) designate an Early Termination Date in accordance with the Indenture and (e) demand payment from Freddie Mac of any amounts due under the Collateral Administration Agreement and/or the Capital Contribution Agreement, as applicable. If any such direction by the Holders of a majority of the aggregate outstanding Class Principal Balance of the Notes, as applicable, has been given and carried out, then on the Early Termination Date the Indenture Trustee will apply the funds on deposit in the accounts as follows:

- (i) to the payment of any amounts due and payable to Freddie Mac, if any, under the Collateral Administration Agreement;
- (ii) to the payment of interest on the Class M-1 Notes, to the extent outstanding, as to amounts accrued and unpaid through such Payment Date;
- (iii) to the repayment to the Holders of the Class M-1 Notes, to the extent outstanding, of any remaining Class Principal Balance of the Class M-1 Notes;
- (iv) to the payment of interest on the Class M-2 Notes, to the extent outstanding, as to amounts accrued and unpaid through such Payment Date;
- (v) to the repayment to the Holders of the Class M-2 Notes, to the extent outstanding, of any remaining Class Principal Balance of the Class M-2 Notes;
- (vi) to the payment of interest on the Class B-1 Notes, to the extent outstanding, as to amounts accrued and unpaid through such Payment Date; and

- (vii) to the repayment to the Holders of the Class B-1 Notes, to the extent outstanding, of any remaining Class Principal Balance of the Class B-1 Notes.

Procedures relating to Delayed Payments. If the Indenture Trustee does not receive the net amount, if any, owed by Freddie Mac under the Collateral Administration Agreement and the Capital Contribution Agreement when due, (a) the Indenture Trustee will promptly notify the Trust in writing and (b) unless within 30 days after such notice (i) such payment has been received by the Indenture Trustee, the Indenture Trustee will request Freddie Mac to make such payment as soon as practicable after such request but in no event later than three Business Days after the date of such request. If such payment is not made within such time period, the Indenture Trustee will notify the Holders of such nonpayment and will take such action as the Holders of not less than a majority of the aggregate outstanding Class Principal Balance of the Notes directs in writing or, if no such direction is received, such action as the Indenture Trustee deems most effectual (in each case, which may include declaring an Early Termination Date). Any such action will be without prejudice to any right to claim an Indenture Event of Default.

**United States Federal Income Tax
Consequences**

The Trust will receive an opinion from Allen Overy Shearman Sterling US LLP that, although the tax characterizations are not free from doubt, the Class M Notes will be characterized as indebtedness for U.S. federal income tax purposes, and the Class B Notes will be treated in part as a limited recourse guarantee contract and in part as an interest-bearing collateral arrangement for U.S. federal income tax purposes. The Trust, Freddie Mac and each Beneficial Owner of a Note, by acceptance of such Note, will agree to treat such Note in the manner described above unless a change in law or administrative practice requires a Note to be treated in some other manner.

To the extent payments on the Class B Notes are treated as interest with respect to the interest-bearing collateral arrangement, such interest will be eligible for the portfolio interest exemption subject to certain exceptions and requirements. To the extent payments on the Class B Notes are treated as guarantee fees, Allen Overy Shearman Sterling US LLP is of the opinion that such payments generally will be foreign source for Non-U.S. Beneficial Owners that are not engaged in the conduct of a U.S. trade or business. Accordingly, Allen Overy Shearman Sterling US LLP is of the opinion that such payments will not be subject to U.S. withholding tax, though paying agents other than Freddie Mac may disagree. Potential investors that are Non-U.S. Beneficial Owners should consult with their tax advisors.

In the opinion of Allen Overy Shearman Sterling US LLP, although the matter is not free from doubt, neither the Trust nor any portion thereof will be classified as an association taxable as a corporation, a publicly traded partnership taxable as a corporation or a taxable mortgage pool taxable as a corporation for U.S. federal income tax purposes. In

PRELIMINARY TERM SHEET

addition, in the opinion of Allen Overy Shearman Sterling US LLP, the Trust will not be treated as engaged in the conduct of a U.S. trade or business as a result of its contemplated activities.

Legal Investment

To the extent that your investment activities are subject to investment laws and regulations, regulatory capital requirements or review by regulatory authorities, you may be subject to restrictions on investment in the Notes. You should consult your legal, tax and accounting advisers for assistance in determining the suitability of and consequences to you of the purchase, ownership and sale of the Notes.

You should be aware that the Notes do not represent an interest in and are not secured by the Reference Pool or any Reference Obligation and that the Notes do not represent obligations of Freddie Mac.

The Notes will not constitute “mortgage related securities” for purposes of SMMEA.

ERISA Considerations

Fiduciaries or other persons acting on behalf of or using the assets of (i) any employee benefit plan or arrangement, including an IRA, subject to ERISA, Section 4975 of the Code, or any Similar Law or (ii) an entity which is deemed to hold the assets of such Plan, should carefully review with their legal advisors whether the purchase or holding of a Note could give rise to a transaction prohibited or not otherwise permissible under ERISA, the Code or Similar Law.

Subject to the considerations and conditions described in the Final PPM it is expected that the Class M Notes may be acquired by Plans or persons acting on behalf of, using the assets of or deemed to hold the assets of a Plan. The Class B Notes may not be acquired or held by Plans or persons acting on behalf of, using the assets of or deemed to hold the assets of a Plan.

Registration and Denomination

The Notes will be issuable in book-entry form through DTC, Euroclear and Clearstream. The Notes will be issued in minimum denominations specified in Table 1 and integral multiples of \$1 in excess thereof.

Record Date

The Business Day immediately preceding a Payment Date, with respect to Book-Entry Notes, and the last Business Day of the calendar month preceding a Payment Date, with respect to Definitive Notes.

Investment Company Act

The Trust has not registered and will not register with the SEC as an investment company under the Investment Company Act in reliance on Section 2(b) of the Investment Company Act. The Trust has been structured with the intent that it will not constitute a “covered fund” for purposes of the Volcker Rule.

Commodity Pool Considerations

Freddie Mac does not consider the Trust to be a “commodity pool” as such term is defined in the Commodity Exchange Act and, therefore, no person associated with the Trust should be subject to registration with the CFTC as a CPO. If Freddie Mac subsequently determines that

MSCR NOTES, SERIES 2024-MN9
FREDDIE MAC MSCR TRUST MN9
PRELIMINARY TERM SHEET

the Trust is a “commodity pool,” then Freddie Mac or another Transaction Party may be subject to CPO registration absent an exemption. In this case, Freddie Mac may either (i) cause an early termination of the Collateral Administration Agreement and the Capital Contribution Agreement, which would result in redemption of the Notes prior to the Scheduled Maturity Date, or (ii) Freddie Mac, or another Transaction Party, may register as a CPO. If Freddie Mac determines that the Trust is a “commodity pool” under the Commodity Exchange Act, Freddie Mac will direct the Indenture Trustee to notify Noteholders as to Freddie Mac’s proposed course of action, including whether it intends to claim an exemption from CPO registration, effect an early redemption of the Notes, or register as a CPO. You should consult your legal advisors to determine whether, and to what extent, you would be impacted if the Trust were to be deemed a “commodity pool” and investments in the Notes were to be deemed an investment in commodity interests that could subject the investor to regulation as a “commodity pool”.

“Benchmark Replacement Date” means the earliest to occur of the following events with respect to the then-current Benchmark (including the daily published component used in the calculation thereof):

- (1) in the case of clause (1) or (2) of the definition of “Benchmark Transition Event,” the later of (a) the date of the public statement or publication of information referenced therein and (b) the date on which the administrator of the Benchmark permanently or indefinitely ceases to provide the Benchmark (or such component); or

Appendix A
Description of the Reference Pool¹

¹ Any Cut-off Date LTV Ratio calculations presented in Appendix A to this Term Sheet are based on the as-is appraised value or as-stabilized appraised value of such mortgaged property, as set forth in Appendix A to the Preliminary PPM.

Each Reference Obligation has a Scaled Cut-off Balance equal to the Cut-off Date Balance. The Cut-off Date Balance/Unit, Cut-off Date LTV and Underwritten NCF DSCR calculations presented are based on the Cut-off Date Balance.

With respect to any floating-rate or hybrid ARM mortgage loan, Underwritten DSCR calculations presented in Appendix A to this Term Sheet are based on an assumed SOFR of 5.25000%.

3 groups of Reference Obligations (each, a “Crossed Loan Group”) are made up of two or more mortgage loans that are cross-collateralized and cross-defaulted with each mortgage loan in such group. Such Reference Obligations in the Crossed Loan Groups represent approximately 11.049% of the Cut-off Date Reference Pool Balance. Unless otherwise indicated, information is presented regarding all of the Reference Obligations included in a Crossed Loan Group as separate Reference Obligations in Appendix A to this Term Sheet. However, each Reference Obligation in a Crossed Loan Group (including any junior Reference Obligation identified on Appendix A) is treated as having the same Cut-off Date LTV, Maturity LTV, Cut-off Date Balance/Unit, Maturity Date Balance/Unit and debt service coverage ratio as the related Crossed Loan Group as a whole. These ratios, except for the Cut-off Date Balance/Unit and Maturity Date Balance/Unit, reflect, in each case, a weighted average of the respective individual ratio for each Reference Obligation and any Outside Crossed Loan in a Crossed Loan Group, weighted based on the Cut-off Date Balance for such Reference Obligation and Outside Crossed Loan and relative to the aggregate Cut-off Date Balance of all of the Reference Obligations and any Outside Crossed Loan in such Crossed Loan Group. The Cut-off Date Balance/Unit for the Reference Obligations in a Crossed Loan Group is based on the aggregate Cut-off Date Balance for all of the Reference Obligations and any Outside Crossed Loan in such Crossed Loan Group, and the aggregate Total Units of all of the mortgaged real properties securing such Reference Obligations. The Maturity Date Balance/Unit for the Reference Obligations in a Crossed Loan Group is based on the aggregate Maturity Date Balance for all of the Reference Obligations and any Outside Crossed Loan in such Crossed Loan Group, and the aggregate Total Units of all of the mortgaged real properties securing such Reference Obligations.

With respect to any mortgage loan that is subject to a supplemental loan (e.g., a taxable tail), Cut-off Date LTV, Maturity LTV, Cut-off Date Balance/Unit, UW NCF DSCR and UW NCF DSCR (IO) calculations presented for such mortgage loan and the related supplemental loan are based on the aggregate Cut-off Date Balance for such mortgage loan and the related supplemental loan.

See also “*The Reference Obligations — Additional Information Regarding the Reference Obligations*” in the Preliminary PPM.
