AllRegs® User Guide for Use with the Freddie Mac Multifamily Seller/Servicer Guide

AllRegs Freddie Mac Site
You can access the free “Freddie Mac site” version of the Guide on AllRegs Online via mf.freddiemac.com/lenders/guide. From our main web page, click on Guide and Forms under the “Lenders” box; then select “Log in” next to AllRegs under Applications.

Table of Contents
Under Freddie Mac Multifamily on the left side of the page, you will see the following folders:

- **AllRegs User Guide** – link to this User Guide
- **Bulletins and Letters**
- **Guide Topic Resource**
- **Multifamily Seller/Servicer Guide**

**Bulletins and Letters**
When “Bulletins and Letters” is expanded, the Version Information, Copyright Notice, and Bulletins and Industry Letters from the current year and previous years display.

**Guide Topic Resource**
When “Guide Topic Resource” is expanded, a list of frequently searched Multifamily Seller/Servicer Guide topics will appear. When a topic is clicked, key Guide sections, loan documents and web resources relating to the selected topic will appear. This resource is particularly helpful with searching as it will come up as a top-searched term and you will not need to scroll through the other results.
Freddie Mac’s requirements for Mortgages secured by a property containing five or more dwelling units are split into the following nine groups of chapters:

- Chapters 1-7: Freddie Mac – Seller/Servicer Relationship
- Chapters 8-11: Property, Borrower and Credit Underwriting
- Chapters 12-16SBL: Reserved
- Chapters 17-28A: Originating Cash and Bond Credit Enhancement Mortgages
- Chapters 29-35: Title, Insurance, Final Delivery, Warehousing and File Retention
- Chapters 36-49: Servicing Freddie Mac Loans
- Chapters 50-54: Accounting and Reporting
- Chapters 55-59: Documentation and Deliveries
- Chapters 60-69: Third-Party Reports

Each topic contains at least one chapter, and each chapter (e.g., Chapter 2) contains at least one section (e.g., Section 2.1). Several sections also contain separate subsections (e.g., Section 2.12(a)).
Guide Content Features

This section explains Guide content features that identify when changes to the Guide are made.

- **Effective Dates**
  
The date listed next to a Guide provision title is the effective date of the most recent update to that Guide provision. There may be some instances where the provision is effective on a future date.

  The screenshot to the right shows the Table of Contents view for Chapter 8 with each effective date listed next to the section’s title.

- **Color-Coded Text**
  
The most recent Guide additions are "color-coded" with green text. This allows you to view the additions made with the given effective date version of a Guide provision. Minor changes, such as grammatical and formatting revisions, are not color-coded.

  Below is an example of a section with green color-coding:

<table>
<thead>
<tr>
<th>EPA Energy Star Score</th>
<th>A score obtained using the U.S. Environmental Protection Agency’s (EPA’s) Portfolio Manager®, used by Borrowers seeking Green Advantage benefits.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Equity Conflict of Interest statement</td>
<td>If an Equity Conflict of Interest exists, as defined in Section 2.25, the Seller must disclose the nature and extent of the conflict in writing to Freddie Mac.</td>
</tr>
</tbody>
</table>

Searching

The search function at the top of the pages provides a comprehensive search of all Guide content. By properly defining and executing your search, it should return results quickly and save you valuable time.

It is easy to perform a broad basic search by typing in a word or phrase that you are looking for and pressing **Enter**. However, it’s recommended that you filter and refine your search. The following tips can help:

- Every word matters. Generally, all the words you type in the search will be used.
- Search is not case sensitive. Searching for [mortgage] is the same as searching for [Mortgage].

This process should be followed to obtain good quality searches so the results will closely relate to what you wish to find.

- Use the filter – located in the **Advanced Search** drop-down menu - to select specific sections or documents to search.
You can select specific sub-sections and documents within each folder by clicking the > sign. This will expand the list.

If you want to search only current Guide requirements, do not select the Include Old Content filter in your search filter.

- Enter a search term on the top of the page.
- To narrow down your search results, select Find Synonyms, Match all words, Match any words or Match exact phrase.
- Press the Enter key or click to perform the search.

Create Your Search

1. In the Advanced Search field, enter your keyword(s) or phrase. If applicable, select one of the suggested search terms from the list that appears below your keyword(s).
2. Click Advanced Search to refine your search results.
3. A pop-up window displays additional search options. Perform the following:
   a) Under “Select a Specific Library to Search”, expand “Freddie Mac Multifamily”
   b) Select the content you want to search
4. Narrow or expand the scope of the search results by selecting one or more of the following:

a) **Find Synonyms** – If checked, it will include any of the terms you enter, as well as terms with nearly the same meaning in the results.

b) **Match all words** – Searches all words of the terms you enter and will only provide results that include all the words, but not necessarily in the same order as entered in the search field. If you are unsure of the exact terminology, you can select **Find Synonyms** to show results for similar terms as well.

c) **Match any word** – Searches for any of the words you enter and will provide results that include any of the words as if each word were searched individually. You can select **Find Synonyms** to show results for similar terms with this search option as well.

d) **Match exact phrase** – Searches for the phrase you enter, exactly as typed.

5. Press the Enter key or click the search icon to perform the search.

6. The search results are displayed in the right panel; click a document title to view the document.

7. Guide Topic Resource results will appear at the top of the list of documents so that you don’t need to scroll through other results. These results include key related Guide sections, loan documents and web resources.

8. You may narrow the search results by selecting a **Keyword** from the list on the left that also appears in the list of document results.
Tips and Best Practices for Searching

- **Keep it simple.** If you're looking for a particular subject, just enter the logical word or phrase, or as much of its name as you can recall. If you're looking for a particular concept or product, start with its name. For example, if you're looking for Targeted Affordable Housing guidelines, just enter [Targeted Affordable Housing or TAH]. Simple is good.

- **For general searches think how the document you are looking for will be written.** A search engine is not a human; it is a program that matches the words you give to documents on AllRegs. Use the words that are most likely to appear on the page, for example, instead of typing [values that are assigned to properties], enter [appraisals], because that's a more direct choice for your search.

- **Describe what you need with as few terms as possible.** All words you search for are used so additional words limit the results. The main advantage to starting with fewer keywords is that, if you don't get what you need, the results may come back with something that may help you choose a better term to refine your results on the next search.

- **Use Guide Glossary terms** when possible. For example, if you search [tax-exempt loan], you will not get as many results as when you search [TEL], which is a Guide Glossary term. Therefore, for extensive results on [adjustable rate mortgages], you will need to search [TEL].

- **Choose descriptive words.** The more unique the word is, the more likely you will get relevant results. Words that are not very descriptive, like [document], [company], or [info] are usually not needed. Keep in mind, however, that even if the word has the correct meaning but it is not the one most commonly used, it may not match the pages you need. For example, [cell phone ringtones] is more descriptive and specific than [cell phone sounds].

- **Content contained within Guide forms and exhibits that are posted as attached documents are not searchable.** However, the titles of attached documents are searchable. Therefore, when a search is run for a certain term, even if that term is contained within a form or an exhibit that is posted as an attachment, the search results will not include that form or exhibit unless the term is also part of the title.

- **Define your search with the use of the inline revision feature.** If a Guide provision with a future revision or revision history is included in search results, the searched term will be highlighted and shown first in each applicable future revision and/or revision history, followed by the current content. Hide any future revisions or revision histories if you only want to see where the term appears in the current version.
