Exhibits, Forms, Glossary and Directory

Note that:

- Exhibits referenced in the Guide are Freddie Mac exhibits unless otherwise indicated.
- Forms referenced in the Guide are Freddie Mac forms unless otherwise indicated.
- The Glossary contains definitions of select terms used in the Guide.
- The Directory identifies, in alphabetical order, all of the Freddie Mac departments referenced in italics in the Guide. Address, telephone and fax numbers are indicated for each department, and email addresses are listed for some departments.

Each topic contains at least one chapter, and each chapter (e.g., Chapter 2) contains at least one section (e.g., Section 2.1). Several sections also contain separate subsections (e.g., Section 2.12(a)).

Guide Content Features

This section explains Guide content features that identify when changes to the Guide are made.
• Effective Dates

The date listed next to a Guide provision title is the effective date of the most recent update to that Guide provision. There may be some instances where the provision is effective on a future date.

Below shows the Table of Contents view for Chapter 8 with each effective date listed next to the section’s title.

有益于 Chapter 8: Property Fundamentals

- 8.1: Introduction (09/08/04)
- 8.2: Structure (09/08/04)
- 8.3: Moisture or Mold issues (02/07/05)
- 8.4: Occupancy (02/07/05)

• Color-Coded Text

The most recent Guide additions are "color-coded" with green text. This allows you to view the additions made with the given effective date version of a Guide provision. Minor changes, such as grammatical and formatting revisions, are not color-coded.

Below is an example of a section with green color-coding:

<table>
<thead>
<tr>
<th>EPA Energy Star Score</th>
<th>A score obtained using the U.S. Environmental Protection Agency’s (EPA’s) Portfolio Manager®, used by Borrowers seeking Green Advantage benefits.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Equity Conflict of Interest statement</td>
<td>If an Equity Conflict of Interest exists, as defined in Section 2.25, the Seller must disclose the nature and extent of the conflict in writing to Freddie Mac.</td>
</tr>

Searching

The search function at the top of the pages provides a comprehensive search of all Guide content. By properly defining and executing your search, it should return results quickly and save you valuable time.

It is easy to perform a broad basic search by typing in a word or phrase that you are looking for and pressing Enter. However, it’s recommended that you filter and refine your search. The following tips can help:

• Every word matters. Generally, all the words you type in the search will be used.
• Search is not case sensitive. Searching for [mortgage] is the same as searching for [Mortgage].

This process should be followed to obtain good quality searches so the results will closely relate to what you wish to find.
• Use the filter – located in the **All Content** drop-down menu - to select specific sections or documents to search.

- If you want to search all, use ✔ **Select All**
- If you don’t want old Bulletins to come up, don’t use ✔ **Include Old Content**
- You can select specific sub-sections and documents within each folder by clicking the > sign. This will expand the list.

• Enter a search term on the top of the page.
• Select **Options** to toggle the Find Synonyms, Match all words, Match any words, Match exact phrase.
• Press the **Enter** key or click ![Search Button] to perform the search.

### Create Your Search

1. In the **All Content** field, enter your keyword(s) or phrase. If applicable, select one of the suggested search terms from the list that appears below your keyword(s).
2. Click **All Content** to refine your search results.

1. A pop-up window displays additional search options. Perform the following:
   a) Select the content tab from the list on the left. The table of contents displays on the right.
   b) Select the content you want to search.
   c) Click **Options** to modify how the keyword(s) are queried.

2. Toggle the following attributes to narrow or expand the scope of the search results.
   a) **Find Synonyms** – If checked, it will include any of the terms you enter, as well as terms with nearly the same meaning in the results.
   b) **Match all words** – Searches all words of the terms you enter and will only provide results that include all the words, but not necessarily in the same order as entered in the search field. If you
are unsure of the exact terminology, you can select **Find Synonyms** to show results for similar terms as well.

c) **Match any word** – Searches for any of the words you enter and will provide results that include any of the words as if each word were searched individually. You can select **Find Synonyms** to show results for similar terms with this search option as well.

d) **Match exact phrase** – Searches for the phrase you enter, exactly as typed.

3. Press the Enter key or click ✪ to perform the search.
4. The search results are displayed in the right panel; click a document title to view the document.
5. You may narrow the search results by selecting a **Recurring Keyword** from the list on the left that also appears in the list of document results.
Tips and Best Practices for Searching

- **Keep it simple.** If you're looking for a particular subject, just enter the logical word or phrase, or as much of its name as you can recall. If you're looking for a particular concept or product, start with its name. For example, if you're looking for Targeted Affordable Housing guidelines, just enter [Targeted Affordable Housing or TAH]. Simple is good.

- **For general searches think how the document you are looking for will be written.** A search engine is not a human; it is a program that matches the words you give to documents on AllRegs. Use the words that are most likely to appear on the page, for example, instead of typing [values that are assigned to properties], enter [appraisals], because that's a more direct choice for your search.

- **Describe what you need with as few terms as possible.** All words you search for are used so additional words limit the results. The main advantage to starting with fewer keywords is that, if you don't get what you need, the results may come back with something that may help you choose a better term to refine your results on the next search.

- When searching Guide content, use **Guide Glossary terms** when possible. For example, if you search [tax-exempt loan], you will not get as many results as when you search [TEL], which is a Guide Glossary term. Therefore, for extensive results on [adjustable rate mortgages], you will need to search [TEL].

- **Choose descriptive words.** The more unique the word is, the more likely you will get relevant results. Words that are not very descriptive, like [document], [company], or [info] are usually not needed. Keep in mind, however, that even if the word has the correct meaning but it is not the one most commonly used, it may not match the pages you need. For example, [cell phone ringtones] is more descriptive and specific than [cell phone sounds].

- Content contained within Guide forms and exhibits that are posted as **attached documents are not always searchable.** However, the titles of attached documents are searchable. Therefore, when a search is run for a certain term, even if that term is contained within a form or an exhibit that is posted as an attachment, the search results will not include that form or exhibit unless the term is also part of the title.

The following features and navigation aids are available within the document view:
