

Small Balance Loan Program Overview (SB-Deals[®])

Investor Presentation

As of December 31, 2023

Small Balance Loan Program | Key Facts

We have securitized 15,437 loans totaling \$41.4 billion through our SB Certificates®

Investor Highlights

- FRESB deals are not rated and are generally issued by a third-party trust
- Freddie Mac purchases and aggregates individual loans from lenders and securitizes pools of approximately \$225 million or more
- Entire flow, from quote through post-securitization monitoring, leverages K-Deal® processes
- SB-Deals® have a separate “SBXX” designation on the FRESB shelf, consistent with other existing non-K-Deal securitizations (such as M-DealsSM and Q-DealsSM)
- FRESB deals are highly mission driven and are a rich source for potential Community Reinvestment Act (CRA) credit

Focused Expertise and Results

- Dedicated professionals work within our Multifamily Production, Underwriting, Capital Markets, and Asset Management & Operations groups and focus solely on SBL
- We have a specialty network of 12 [Optigo® SBL lenders](#) with extensive experience in the SBL market who source small balance loans across the country
- As of December 2023, we have securitized 15,437 loans, which benefited 566,986 apartment units and totaled \$41.4 billion in volume
- In 2023, we settled seven SB securitizations backed by \$1.9 billion of collateral comprising 659 loans

SBL Program | Mechanics and Features

Freddie Mac Multifamily generally refers to SBL as loans between \$1 million and \$7.5 million, although in the commercial real estate market “small loans” can often refer to loans of less than \$15 million. Certain regulatory agencies refer to small loans as having 5-50 units.

- We offer 5-, 7- and 10-year fixed-rate balloon products as well as 20-year hybrid balloon mortgages with 5-, 7- and 10-year initial fixed-rate periods followed by floating-rate SOFR with six-month reset periods
- Partial-term interest only (IO) and full-term IO may be available
- Originated and serviced through Optigo SBL lenders
- Efficient due diligence process with focused underwriting and commitment execution
- Competitive, transparent pricing
- Streamlined non-negotiable loan documents
- Available in all markets
- Cash-out proceeds may be allowed
- Credit and underwriting standards consistent with Freddie Mac Multifamily Conventional line of business
- Freddie Mac is the Master Servicer post-securitization

Sourcing Our SBL Business

The dedicated SBL
Production team sources its
loans from a select group
**of 12 experienced
multifamily lenders**

- The small size of the SBL network promotes quality originations and a high level of service to lenders and borrowers
- Lenders must meet our standards for both origination and servicing loans, which include meeting minimum financial requirements and obtaining satisfactory annual audits

SBL Terms | Prepayment Provisions

Prepayment varies by term but offers both step-down or yield maintenance provisions for all products

Option	Hybrid ARMs ¹			Fixed-Rate		
	5+15 Year	7+13 Year	10+10 Year	5 Year	7 Year	10 Year
1	54321, 1%	5544321, 1%	5544332211, 1%	54321	5544321	5544332211
2 ²	321(3), 1%	3(2)2(2)1(3), 1%	3(3)2(3)1(4), 1%	321(3)	3(2)2(2)1(3)	3(3)2(3)1(4)
3 ³	(YM or 1%), 1%	(YM or 1%), 1%	(YM or 1%), 1%	YM or 1%	YM or 1%	YM or 1%
4	310(3), 0%	N/A	N/A	310(3)	N/A	N/A

¹ Hybrid ARM consists of initial fixed-rate period followed by floating-rate period. The hybrid floating-rate coupon is based on 30-day Average SOFR + 325 margin. Every six months, the floating rate may increase or decrease by up to 1%, with a maximum lifetime cap equal to the initial fixed rate +5% and a lifetime floor equal to the initial fixed rate

² Prepay description: e.g., "321(3), 1%" refers to 3% for year 1, 2% for year 2, 1% for the next three years, then 1% during the remaining floating-rate period

³ Higher of yield maintenance (YM) or 1% during fixed-rate period; 1% during floating-rate period

Note: All prepayment options are open for prepayment without premium for three months prior to maturity. Hybrid ARMs can be prepaid without payment of a prepayment premium if prepaid during the floating-rate period using the proceeds of a Freddie Mac loan that is the subject of a binding purchase commitment by Freddie Mac or as the result of the sale of the property to an unrelated third party in an arms' length transaction. Pricing varies by prepay type.

SBL Mortgage Guidelines

Property Type

- Conventional multifamily housing with five or more residential units
- Section 8 vouchers and tax abatements
- Properties may include commercial income
- Not allowed: Seniors Housing, Student Housing (greater than 50% concentration), military housing (greater than 50% concentration) and properties with Low-Income Housing Tax Credit (LIHTC) and/or Land Use Restriction Agreements (LURAs) (except those in the last two years of the initial compliance period or in the extended use period)

Loan Terms

- 20-year Hybrid ARM structures of 5-, 7- or 10-year initial fixed-rate period followed by floating-rate SOFR with six-month reset periods
- 5-, 7- and 10-year fixed balloon loan terms
- Maximum amortization of 30 years for both hybrid and balloon products
- Partial-term IO; full-term IO may be available
- Credit parameters consistent with Freddie Mac Multifamily conventional business
- Floating rate based on 30-day Average SOFR plus margin, subject to the periodic cap, floor and lifetime ceiling
- Prepayment fee varies by term but offers both step-down or yield maintenance provisions for all products

SBL Market Credit Alignment

	DSCR/LTV Baseline	
	Minimum Amortizing DSCR	Maximum LTV
Top SBL Markets	1.20x	80%
Standard SBL Markets	1.25x	80%
Small SBL Markets	1.30x	70% for Refinances 75% for Acquisition
Very Small SBL Markets	1.40x	

	Full-Term IO Adjustments*	
	Full-Term IO or IO during Fixed-Rate Period of Hybrid ARM	
	Add to the Baseline	Maximum LTV
Top and Standard SBL Markets	0.15x	65%
Small and Very Small SBL Markets	0.10x	60%

(*) Maximum available partial IO period for Small and Very Small SBL Markets is generally limited to:

- Zero (0) years on 5-year term
- One (1) year for a 7-year term
- Two (2) years for a 10-year term/20-year hybrid

Alternative measures explored to secure applications when LTV/DSCR adjustments are necessary based on competition in market:

- Maintain static principal payments
- Shorter amortization
- Reduce IO period during fixed-rate term
- Use of some base recourse

Typical SB-Deal Issuance Timeline

Credit Enhanced SB-Deals

Structure and Waterfall Overview

The SB-Deal structure mirrors the typical floating-rate K-Deal pro rata structure¹ with senior Freddie Mac guaranteed A bonds, a single Freddie Mac guaranteed interest-only bond ([the X1](#)) and a single subordinate bond²

The securitization will switch from pro rata to sequential pay if a Waterfall Trigger Event occurs. The trigger events are:

- The unpaid principal balance (UPB) of the collateral (excluding specially serviced loans) is less than or equal to 15% of the initial pool balance
- The aggregate 60-day delinquency is greater than 5% of the collateral. In the event the 60-day delinquency subsequently falls below 5%, the transaction will revert to pro rata pay
- Credit support to Class A is less than 7.5%, and once credit support increases to 10%, the transaction will revert to pro rata pay

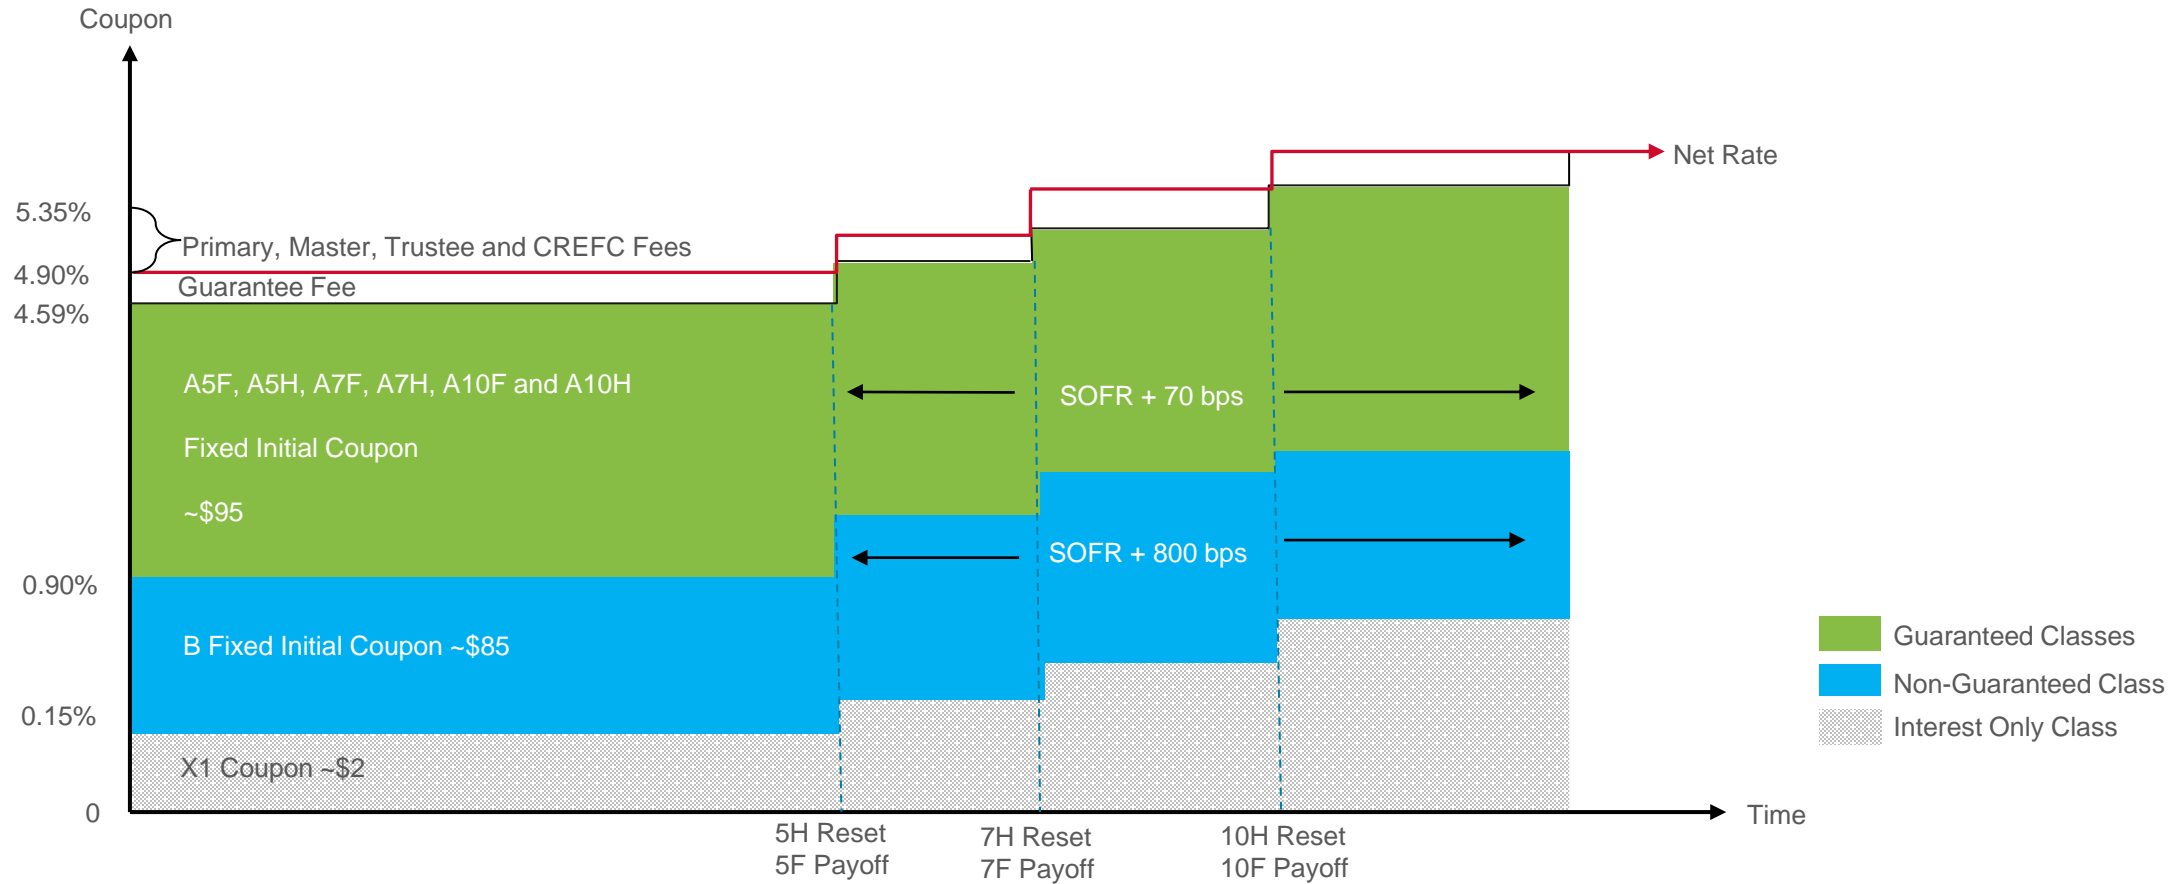

Each securitization will have a clean-up call (Optional Termination) when the collateral balance reaches 5% of the original pool balance, as outlined below

- The holders of a majority interest of the Controlling Class (excluding Freddie Mac), the special servicer and any third-party master servicer, in that order, will each in turn have the option to purchase all of the SBL Loans and all other property remaining in the Trust on any distribution date on which the total stated principal balance of the mortgage pool is less than 5% of the initial mortgage pool balance

* Primary servicing, master, trustee, etc.

Small Balance Loan Program (SB-Deals)© Freddie Mac Multifamily ¹ Principal is distributed pro rata, unless a Waterfall Trigger Event has occurred and is continuing ² SB-102, SB-103 and SB-104 are fully guaranteed

Sample SB-Deal Rate and Coupon Structure¹

Note: The graph above demonstrates the pro rata pay structure before a Waterfall Trigger. For actual bond pricing, the senior bonds assume a 5% CPR prepayment speed until the earlier of each underlying loan's maturity date or first interest reset date, at which time the loans are assumed to pay off in full. Pass-through rates (Coupon) for the fixed A classes pay a fixed coupon. Hybrid classes have a fixed coupon during the initial fixed period and then switch to 30-day Average SOFR + 70 bps. The pass-through rate for the X1 is based on residual cash flow after paying the As, B and Guarantee Fee. The B, after a period of receiving a fixed-rate from each group, switches to SOFR plus a margin. All are classes subject to capped rates per offering documents.

Sample SB-Deal B-Piece Coupon Structure

- Freddie Mac sets the initial fixed-rate coupon for each class’s fixed-rate period
- The B-piece component rates from each hybrid group will reset based upon the coupon reset date of the last loan in that particular group, at which time the B-piece component rate for that particular group will switch to SOFR + 800 bps
- After each component rate reset, the entire B coupon will continue to be the weighted average of each component. After the 10H component resets, the remaining hybrid classes will all contribute SOFR + 800 bps
- The B-piece coupon is subject to an available funds cap

Loan Type	UPB (\$Millions)	Balloon Term (Months)	Fixed Term (Months)	Remaining Fixed Period	Month 1 (Initial Fixed Coupon)	Month 60	Month 84	Month 120

10H	\$50	240	120	117	7.50%	7.50%	7.50%	13.00%
B-piece	\$50				7.50%	9.33%	10.25%	13.00%

Note: The example shows sample seasoning during Freddie Mac’s aggregation period. This coupon structure is only for SB-65 and forward. Prior SB-Deals provided for a different B-piece coupon structure. The coupon structure for SB-83 and forward is with SOFR. Prior SB-Deals used LIBOR. Assumes SOFR of 5.0%

SB-Deals Performance

Freddie Mac is an active and consistent issuer of top-quality multifamily securities, featuring transparency and consistency on collateral and deal information

- As of December 2023, the SB-Deal program has grown to include:
 - **111** SB-Deal transactions³
 - **\$41.4 billion** in combined issuance
 - **\$24.7 billion** current outstanding balance
 - **15,437 loans** (original loan count)
 - **98.9%** of the SBL Loans are current
- **248 loans** are assigned to special servicing (representing ~296 bps of outstanding principal)
- There have been **\$61.4 million** in total realized losses (representing approximately 15 bps of total issuance)
- **5,839** loans have paid off through December 2023
- **12.8%** (1,310 loans) of the outstanding loan population (by outstanding principal) is on the servicers' watchlist¹
- Deals SB-3, SB-8 and SB-19 are seasoned loan executions. Since SB-19, these kind of seasoned deals are no longer issued through the SB securitization path²

¹ The respective primary servicers maintain a watchlist for each securitization. Loans are added to and removed from the master servicer's watchlist in accordance with criteria established by CREFC. View the [SB-Deal Performance Data](#) presentation for additional details.

² These loans were originated by lenders that are not part of the Optigo network and the loans are not on Freddie Mac paper

³ SB-102, SB-103 and SB-104 are fully guaranteed

SB-Deal® Program Handout

Freddie Mac's securitization program reflects our leadership, versatility and commitment to serving our housing mission. As the market environment changes, we aim to provide the best products for both our borrower and investor communities. The addition of the Small Balance (SBL) line of business to Freddie Mac's lending platform was formally announced in October 2014. The inaugural SB-Deal® was issued in August of 2015.

Securitization Program Strengths

- Strong Credit
- Diversification
- Transparency
- Guarantee
- Best-in-class Servicing Standard
- Strong Performance
- Liquidity

Securitization Highlights

- Targeted deal sizes of \$300 million UPB
- Consistent Issuance
- Deals include ample L1/L1U for potential CRA opportunities

Total issuance as of December 31, 2023: \$41.4 billion

Total Securitization of SB-Deals: \$1.9 billion in 2023

98.9% of SB loans are current, by outstanding principal balance, as of December 2023.

Freddie Mac Multifamily generally refers to SBL as loans ranging from \$1 million to \$1.5 million, with most housing securitizations for 50 units.

Our securitized loans are underwritten to the same standards as loans held in our investment portfolio. Since the inception of our SB-Deal securitization program, our execution volume has grown significantly.

SB-Deal® X1 Bond Program Handout

The SB-Deal® X1 is a Freddie Mac guaranteed interest-only bond, with both coupon and prepayment fees as dual income features, providing a robust interest rate environment hedge.

Structure and Waterfall

PREPAYMENT

- Prepayment of principal
- Prepayment of interest
- Prepayment of fees

INTEREST PAY

- Interest on principal
- Interest on fees

COUPON ON REMAINING BALANCE

- Coupon on principal
- Coupon on fees

Key Features:

- SB-Deals include 5-, 7- and 10-year fixed balloon loans and 20-year Hybrid ARM structures of 5-, 7- or 10-year initial fixed-rate period followed by floating-rate SOFR with six-month reset periods, all with an array of prepayment options.
- Freddie Mac does not guarantee a certain coupon to the X1, but rather guarantees the residual coupon will be paid. However, the guarantee does not cover any loss of expected yield to the X1 arising from reductions in the notional amount of the X1 or because of payment of additional interest amounts.
- Due to the collateralized nature of the X1, the X1 on a \$300 million deal typically has a \$2 price or approximately \$5 million market value at the 15 Constant Prepayment Rate (CPR) pricing spread.

Cash Flow

The pass-through rates for X1 certificates vary and are based, as shown in the chart below, on an initial fixed-rate period followed by floating-rate 30-day Average SOFR and will be subject to capped rates based on the weighted average net mortgage pass-through rate for the related loan group or for the mortgage pool.

Sample SB-Deal Rate and Coupon Structures¹

The chart shows illustrative 30-year pass-through rates for a 5-year fixed rate loan, an actual fixed period, the seven loans issued in a \$1.23B prepayment report and the actual 30-year average SOFR rate for the related loan group, all of which the rates are assumed to cap at 14%.

This report presents a summary of Freddie Mac Multifamily Small Balance Loan (SBL) or SBL voluntary prepayment activity over the past 12 months ending June 2023 (July 2022 through June 2023).

We summarize prepayment speeds in aggregate and by deal type, vintage, prepayment type, prepayment phase and FICO score.

The 12-month average constant prepayment rate (CPR) is 9.8% as of June 2023 — down 650 bps from the December 2022 CPR of 10.4%.

Based on historical performance to date, we find that prepayment speeds increase with loan seasoning and declining prepayment premiums all else equal. As loan seasoning and a growing proportion of loans move into periods with lower prepayment premiums, we expect prepayment activity to pick up. However, higher interest rates are slowing prepayment activity and may continue to do so going forward.

This basis of this report is on voluntary prepayments. There have been only two defaults in the SBL program — only \$4.3 million (11 total units) issued in aggregate on a fully securitized balance of \$40.1 billion in the program's history from October 2014 through June 2023.

See our [SB-Deal Investor Presentation](#) for background information on the program's history, mortgage products, the Freddie Mac Origo® network and FREES bond structure.

Management's expectations for the company's future necessarily involve a number of assumptions, judgments and estimates, and various factors could cause actual results to differ materially from the expectations expressed in these and other forward-looking statements. These assumptions, judgments, estimates and factors are discussed in the company's most recent Annual Report on Form 10-K, and its reports on Form 10-Q and Form 8-K, which are available on the Investor Relations page of the company's website at mf.freddiemac.com/investors/ and the SEC's website at www.sec.gov. The company undertakes no obligation to update forward-looking statements it makes to reflect events or circumstances occurring after the date of this presentation.

This product overview is not an offer to sell or a solicitation of an offer to buy any securities of Freddie Mac or any other issues. Offers for any given security are made only through applicable offering circulars and related supplements, which incorporate Freddie Mac's Annual Report on Form 10-K and certain other reports filed with the Securities and Exchange Commission. This document contains information related to, or referenced in the offering documentation for, certain Freddie Mac mortgage securities. This information is provided for your general information only, is current only as of its date and does not constitute an offer to sell or a solicitation of an offer to buy securities. The information does not constitute a sufficient basis for making a decision with respect to the purchase and sale of any security and is directed only at, and is intended for distribution to and use by, qualified persons or entities in jurisdictions where such distribution and use is permitted and would not be contrary to law or regulation. All information regarding or relating to Freddie Mac securities is qualified in its entirety by the relevant offering circular and any related supplements. You should review the relevant offering circular and any related supplements before making a decision with respect to the purchase or sale of any security. In addition, before purchasing any security, please consult your legal and financial advisors for information about and analysis of the security, its risks and its suitability as an investment in your particular circumstances. The examples set forth above are for illustrative purposes only. Opinions contained in this document are those of Freddie Mac currently and are subject to change without notice. Please visit mf.freddiemac.com for more information. The multifamily investors section of the company's website at mf.freddiemac.com/investors/ will also be updated, from time to time, with any information on material developments or other events that may be important to investors, and we encourage investors to access this website on a regular basis for such updated information.
