Executive Summary

Freddie Mac’s core mission is to provide liquidity, stability and affordability to the U.S. housing market.

The multifamily market has experienced very strong rent and occupancy trends over the last few years, and the demand for rental housing remains robust.

The multifamily sector continues to experience strong investor interest and outperforms other commercial real estate sectors.

Our business model underwent a significant shift – from an investments business to a securitization business – beginning in 2008.

This shift has been successful: Securitization enables us to transfer virtually all risk to third parties, thereby reducing our reliance on the retained portfolio and government backstop guarantee, our guarantee comes before draw.

As part of our business strategy to be innovative and provide thought leadership, we continue to expand our support of affordable housing through new offerings such as small balance, Manufactured Housing Community, tax-exempt loans and, most recently, green workforce loans.
Multifamily Business Overview
Freddie Mac Multifamily Business Key Facts

Freddie Mac’s core mission is to provide liquidity, stability and affordability to the U.S. housing market.

The Freddie Mac Multifamily line of business helps to ensure an ample supply of affordable rental housing by purchasing mortgages secured by apartment buildings with five or more units.

Freddie Mac buys loans from our network of Optigo® lenders — with over 150 branches nationwide, substantial lending experience and established performance records.

Freddie Mac follows a prior-approval underwriting approach and completes the underwriting and credit reviews of all multifamily mortgages in-house.

Multifamily employs nearly 1,000 experienced professionals at its headquarters, four regional offices and nine field offices.

Freddie Mac has provided $663 billion in financing for nearly 90,000 multifamily properties since 1993, representing more than 10,400,000 apartment units.

Freddie Mac’s Multifamily total book of business of $338 billion comprises $260 billion of multifamily guarantees, $37 billion of unsecuritized loans, more than $5 billion of multifamily mortgage-related securities, over $2 billion of other investments and $34 billion of additional market support (primarily unguaranteed securities).
Freddie Mac Multifamily Business YTD19 Review

Freddie Mac Multifamily new business activity was $60.7 billion. Provided financing for over 4,500 multifamily properties, representing more than 638,000 rental units.

- $47 billion of multifamily loans were securitized into K-Deals℠ and SB-Deals℠
- Freddie Mac’s total mortgage portfolio delinquency rate was 4 basis points as of September 30, 2019
  - Freddie Mac’s securitization delinquency rate was 4 basis points

* YTD includes business between Jan 1 - Sept 30, 2019. Does not include LIHTC equity commitments

Multifamily Delinquency Rates

Our disciplined credit practices are one of the main drivers of the continued strong performance of our offerings

Notes: Freddie Mac does not report modified or forbearance loans in delinquency rates if the borrower is less than two monthly payments past due. Fannie Mae reports forbearance loans in their delinquency rates. Sources: Freddie Mac, Fannie Mae, American Council of Life Insurers (ACLI) Quarterly Investment Bulletin, FDIC Quarterly Banking Profile, TREPP (CMBS multifamily 60+ delinquency rate, excluding REOs) for periods prior to 3Q17, Wells Fargo CMBS research for 4Q17-3Q19 CMBS delinquency rates. Delinquency rates for ACLI and FDIC are not yet available.
Rental Demand Remains Strong

A preference for rental housing has remained solid, despite a recent uptick in the homeownership rate

Owner and Renter Households and Homeownership Rate (1990 – 3Q 2019)

* Through 3Q 2019

Sources: US Census Bureau, Current Population Survey/Housing Vacancy Survey, Freddie Mac
Multifamily Fundamentals Are Healthy

Multifamily market is moderating but remains healthy – vacancy rates are below long-term historical averages and effective rent growth remains positive.
Multifamily Fundamentals Are Healthy

The number of construction permits has receded following the cyclical peak in 2015. The moderation of permit growth coupled with strong renter demand are signs that the market is stable.

* Through 3Q 2019

Sources: Moody’s Analytics DataBuffet.com and US Census Bureau

Notes: Starts and completions based on all areas of the US, while permits are only for areas that require a building or zoning permit. Moody’s Analytics estimated that in 2000, 95% of the population was living in a permit issuing area.
Housing Shortage

Housing completions are well below the long-run average; the multifamily market is helping to fill the void

Our Optigo℠ Lender Network

Freddie Mac buys loans from a network of approved Multifamily lenders who have over 150 branches nationwide, substantial experience and established performance records.

The small size of the network promotes quality originations and a high level of service to borrowers. Our lenders must comply with our standards for both origination and servicing of multifamily loans, which includes meeting minimum financial requirements and undergoing satisfactory annual audits.

Financing Affordable Units

95\% of the eligible units we financed in 2019 were affordable to households earning at or below 120\% of the area median income.

The numbers above represent the percentage of affordable units at each AMI threshold. Totals may not add to 100\% due to rounding. Additionally, FHFA mandated exclusions (MHC, Supplementals, etc.) are removed.
Our Credit Philosophy

Freddie Mac makes all credit, structuring and pricing decisions working with our lenders during all aspects of the mortgage production process.

We are focused on:

- Sustainable cash flow
- Market knowledge & fundamentals
- Equity
- Definable exit strategy
- Sponsorship
- Quality real estate collateral

Underwriting teams are situated throughout the country to provide market expertise.

Our Credit Approval Process

1. **START**
   - Lender submits loan request to Production

2. Production sizes, structures and submits loan for pricing

3. Production presents deal to Regional Underwriting for approval to quote

4. Borrower completes loan application and lender submits underwriting package

5. Underwriter completes due diligence process, reports findings in investment brief

6. Underwriter recommends loan for approval

7. **Loan is APPROVED**
   - Rate-locked and funded

   **START**
   - Lender submits loan request to Production
K-Deal℠ Mortgage Guidelines

The following are the general guidelines for Freddie Mac's Multifamily mortgage purchases that are intended for K-Deal securitization (subject to certain exceptions):

| Property Type | ▪ Origination requirements are focused on loans secured by occupied, stabilized and completed multifamily properties
▪ Limited amount of seniors housing, student housing, cooperative housing, manufactured housing and Section 8 HAP contracts |
| Loan Terms | ▪ Mortgages are fixed rate or floating rate
▪ 5-, 7-, 10- and 12-15-year loan terms with a maximum amortization of 30 years
▪ May contain initial interest-only periods
▪ Moderate exposure to full term interest-only loans
▪ Full term interest-only loans require higher initial amortizing debt service coverage ratio (DSCR) and lower loan to value (LTV)
▪ Floating-rate mortgages are based on 1-month LIBOR, generally require a third-party LIBOR cap and are sized using an equivalent fixed rate |
| Borrowers | ▪ Single purpose entity (SPE) is required for all loans greater than or equal to $5 million
▪ A carve-out guarantor is generally required
▪ Entity guarantors are acceptable but may require financial covenants or a material adverse change clause
▪ Established large institutional borrowers with substantial prior experience with Freddie Mac mortgage programs may have more customized documents |
K-Deal Mortgage Guidelines (continued)

Underwriting

- Effective gross income is calculated based on trailing 3-months actual rent collections or the annualized current rent roll minus a minimum 5% vacancy rate subject to submarket data and actual rent collections
- Operating expenses are generally calculated based on trailing 12 months
- Real estate taxes and insurance are based on actual annual expenses
- Property values are based on third-party appraisals and internal value confirmation
- Replacement reserves are typically required and are generally equal to the greater of an engineer’s recommendation or $250/unit or $50/pad for Manufactured Housing Communities.
- Tax and insurance escrows are generally required
- Third-party LIBOR caps that expire prior to related mortgage maturity date are required to be replaced. Replacement cap funds are escrowed at 125% of replacement cost and are recalculated on either a semi-annual or annual basis
- Other third-party reports are required (e.g., Phase I ESA, property condition, zoning, etc.)
- Property condition, Phase I, and Zoning reports are required for all loans over $15 million. A combined property condition and environmental analysis report is required for all loans below $15 million

LTV and DSCR

- Maximum LTV of 80%, minimum DSCR of 1.25x (fixed rate) and 1.00x on the max capped interest rate for floating-rate loans
- Shorter loan terms or underperforming markets, and specialty product types typically require adjustments
- All loans require a maturity risk analysis

Supplemental Financing

- Eligible one year after origination of the first mortgage
- Purchased by Freddie Mac from original lender under Freddie Mac’s supplemental mortgage product
- Lower of 80% LTV or maximum LTV per Loan Agreement and minimum amortizing DSCR of 1.25x (fixed) or 1.10x (floating, at cap)
- Re-underwriting required based on current property performance, an updated appraisal, financials and Freddie Mac’s credit policy
- Monthly escrows for taxes, insurance and replacement reserves required. If the first mortgage allowed for deferral of escrows, the supplemental will trigger collection.
Securitization Program
Multifamily Securitization Program

Approximately 88% of Freddie Mac Multifamily Q3 2019 mortgage loan purchases are intended for future securitization.

Securitization is accomplished through offerings of K-Series Multifamily Mortgage Pass-Through Certificates “K-Deals”, SB-Series Multifamily Mortgage Pass-Through Certificates “SB-Deals” and other securitization transactions.

In general, K-Deals are backed by newly acquired mortgages underwritten to Freddie Mac’s industry-leading underwriting standards. Underwriting and credit reviews are completed by Freddie Mac, and securitized loans are underwritten to the same standards as loans held in our investment portfolio.

Freddie Mac Multifamily announced the addition of the Small Balance Loans (SBL) line of business to its lending platform in October 2014. SBL generally refers to loans between $1 million – $7.5 million and properties with 5-50 units. Deals greater than $6 million and up to $7.5 million in small and very small markets may be permitted subject to Freddie’s approval of an exception request. Unit limit exceptions are also permitted.

In June 2017, Freddie Mac introduced a new series of credit risk transfer securities backed by Tax-Exempt Loans (TELs) made by Freddie Mac Optigo℠ lenders for Targeted Affordable Housing to state or local housing agencies and secured by affordable rental housing. The TEL program finances stabilized affordable multifamily properties with 4% Low-Income Housing Tax Credits (LIHTC) and at least 7 years remaining in the LIHTC compliance period.

As of September 30, 2019, there has been approximately:

- $333.6 billion of K-Deal issuance since the start of the program in 2009
- $23.4 billion of SB-Deal issuance since the start of the program in 2015
- $1.2 billion of ML-Deal issuance since the start of the program in 2017
Multifamily Securitization Program – Strengths

Freddie Mac Multifamily is an active and consistent issuer of high-grade multifamily securities, featuring transparency and consistency on collateral and deal information.

- **STRONG PERFORMANCE**
  K-Deals are secured by assets with some of the industry’s lowest delinquency and vacancy rates, along with other strong property fundamentals.

- **TRANSPARENCY & CONSISTENCY**
  on collateral and deal information via Multifamily Securities Investor Access tool.

- **STRONG CREDIT**
  provided by Freddie Mac’s guarantee plus credit support of underlying mortgages underwritten to Freddie Mac’s portfolio standards.

- **SERVICING STANDARD**
  improves the borrower experience post-securitization.

- **LIQUIDITY**
  supported by expectations forrepeatable and reliable issuance subject to market conditions.

- **CALL PROTECTION**
  associated with defeasance or yield maintenance.

- **DIVERSIFICATION**
  through pooled risk of many assets versus single-asset risk in a typical deal.
Freddie Mac has used its *Multifamily Seller/Servicer Guide* to outline its Servicing Standard and directly refers to it as the “Servicing Standard” in each Pooling and Servicing Agreement (PSA).

- This standard ensures transparency and ongoing communication between all post-securitization transaction parties.

Freddie Mac monitors the process and is not a credit decision maker.

Freddie Mac acts as the servicing consultant to help create a shared credit philosophy and consistent processes.

- Provides analysis of “what Freddie Mac would do” under our credit guidelines when asked by the Master Servicer.

**Special Servicers**

- CWCapital Asset Management LLC
- KeyBank National Association
- PNC Bank, National Association
- Situs Holdings, LLC
- Wells Fargo Bank, National Association
Unprecedented growth as we continue to diversify our product execution options

Credit Metrics – K-Deals

Our K-Deal program has demonstrated consistent credit metrics since the beginning of the program.

10-Year K-Deals

- Cut-Off Date LTV
- Maturity Date LTV
- Underwritten NCF DSCR (Right Axis, Inverted)

7-Year K-Deals

- Cut-off Date LTV
- Maturity Date LTV
- Underwritten NCF DSCR (Right Axis, Inverted)
K-Deal Performance

K-Deal program continues to have strong performance with < 1 bp of losses of total issuance

As of September 2019:

- 99.96% of the K-Deal loans are current (by outstanding principal balance)
- Eight loans are in special servicing (representing <6 bps of outstanding principal)
- Freddie Mac has not realized any credit losses on our K-Deal guarantees¹
- 5.04% of the outstanding loan population (by outstanding principal) is on the servicers' watchlist²

¹ There has been $18.84 million in total losses realized by B-Piece investors (representing < 1 bp of total issuance)
² The respective Master Servicers maintain a watchlist for each securitization. Loans are added to and removed from the watchlist in accordance with criteria established by CREFC
³ Information presented in the table is as of September 2019
Basic K-Deal Transaction Structure

**Freddie Mac securitizes loans via the K-Deal program through the following steps:**

- The loans are sold to a third-party depositor who places the loans into a third-party trust.
- Private label securities backed by the loans are issued by the third-party trust.
- Freddie Mac purchases and guarantees certain bonds (Guaranteed Bonds) issued by the third-party trust and securitizes these bonds via a Freddie Mac trust.
- The resulting Freddie Mac guaranteed structured pass-through certificates (K Certificates) are publicly offered via placement agents.
- The unguaranteed mezzanine and subordinate bonds are issued by the third-party trust and are privately offered to investors via placement agents.

**RELEVANT PARTIES/ENTITIES**

- **Underlying Mortgage Loan Seller**
  - Freddie Mac
- **Underlying Originators**
  - Freddie Mac Conventional and TAH lenders
- **Underlying Master Servicer**
  - Selected by Freddie Mac through bidding process
- **Underlying Special Servicer**
  - Selected by subordinate bond investor in consultation with Freddie Mac
- **Underlying Trustee/Certificate Administrator**
  - Selected by Freddie Mac through bidding process

---

1 Guaranteed Bonds include senior amortizing bonds as well as interest-only bonds derived from senior and subordinate P&I bonds.

Class C

- Pro rata structure is commonly used for floating-rate K-Deals
- Principal collected is distributed pro rata, unless a Waterfall Trigger Event has occurred and is continuing

- A “Waterfall Trigger Event” occurs when (i) the number of non-specially serviced loans remaining in the pool falls below the designated threshold as defined in the securitization documents or (ii) the total outstanding principal balance of the non-specially serviced loans is less than 15% of the initial total pool balance
Sample K-Deal Loss Scenarios

**SCENARIO 1**
Example of loan loss in Freddie Mac K-Deal structure

This loss example illustrates how the underlying certificates would be affected by loan defaults and the Freddie Mac guarantee assuming that the servicer is no longer making principal and interest advances with respect to the defaulted loans. This example is hypothetical and for illustrative purposes only. Class balances, loan balances and other mortgage pool characteristics described in this example do not reflect those of any actual underlying certificates or any actual underlying mortgage pools.

**Assumptions**
- Pool Size: $1.3 billion
- $23 million loan defaults in month 15 (prior to loan maturity)
- Loan sold for $15 million in month 25, $8 million loss in month 25
Sample K-Deal Loss Scenarios (continued)

SCENARIO 2
Example of loan loss in Freddie Mac K-Deal structure

This loss example illustrates how the underlying certificates would be affected by loan defaults and the Freddie Mac guarantee assuming that the servicer is no longer making principal and interest advances with respect to the defaulted loans. This example is hypothetical and for illustrative purposes only. Class balances, loan balances and other mortgage pool characteristics described in this example do not reflect those of any actual underlying certificates or any actual underlying mortgage pools.

Assumptions
- Pool Size: $1.3 billion
- Losses occur during the first 50 months resulting in Class D being written down to zero
- $23 million loan defaults in month 51 (prior to loan maturity)
- Loan sold for $15 million in month 53, $8 million loss in month 53

**Month 0**
- A-1 + A-2 + AM $1.100B
- B $50M
- C $50M
- D $100M

**Losses of $10M extinguishes Class D**

**Months 1-50**
- Regular interest payments of $365M, amortization payments of $125M and prepayments of $120M

**Month 51**
- A-1 + A-2 + AM $855M
- B $50M
- C $50M
- D $0M

**Regular interest payments of $5M which includes interest attributable to the defaulted $23M loan (paid via Freddie Mac Guarantee)**

**Months 52**
- Regular amortization of $3M which does not include principal attributable to the defaulted $23M loan

**Month 53**
- A-1 + A-2 + AM $837M
- B $50M
- C $42M
- D $0M

With no Class D to absorb losses, Class C is written down by the full amount of the $8M loss

$15M paydown to Class A-1 resulting from recovery on the $23M defaulted loan
Sample K-Deal Loss Scenarios (continued)

**SCENARIO 3**
Example of loan loss in Freddie Mac K-Deal structure

This loss example illustrates how the underlying certificates would be affected by loan defaults and the Freddie Mac guarantee assuming that the servicer is no longer making principal and interest advances with respect to the defaulted loans. This example is hypothetical and for illustrative purposes only. Class balances, loan balances and other mortgage pool characteristics described in this example do not reflect those of any actual underlying certificates or any actual underlying mortgage pools.

### Assumptions
- Pool Size: $1.3 billion
- All loans (with the exception of two) pay off on time in month 120
- $115 million and $100 million IO loan maturity defaults in month 120
- Loans sold for $165 million in month 125, $50 million loss in month 125

Alternative Risk Distribution Capabilities
Other Risk Transfer and Financing Vehicles

Freddie Mac Multifamily continues to add new risk transfer vehicles that complement our K-Deals and SB-Deals℠

**SUPPLEMENTAL LOAN INVESTMENT FUNDS**
$1.3 BILLION COMMITMENT SINCE 2016 – 6 FUNDS
Transfers first loss risk on to-be-issued Freddie Mac KJ securitizations

**STRUCTURED CREDIT RISK (SCR) NOTES**
$2.9 BILLION OF REFERENCE POOLS SINCE 2016 – 3 TRANSACTIONS
Provides synthetic risk transfer structure typically for certain targeted affordable loans

**AGGREGATION RISK TRANSFER CERTIFICATES (KT-DEALS)**
$3.0 BILLION SINCE 2017 – 3 TRANSACTIONS
Transfers risk on loans awaiting securitization

**WHOLE LOAN INVESTMENT FUNDS**
$5.1 BILLION COMMITMENT SINCE 2017 – 5 FUNDS
Vehicle to transfer risk on less liquid loans e.g., Value-Add, Moderate Rehab

**TAX-EXEMPT LOAN SECURITIZATION (ML-DEALS)**
$1.2 BILLION SINCE 2017 – 5 TRANSACTIONS
Transfers risk on tax-exempt loans

**MULTIFAMILY CREDIT INSURANCE POOL (MCIP)**
$0.9 BILLION REFERENCE POOL – FIRST TRANSACTION CLOSED IN 4Q18
Reinsurance provides first loss credit protection on loans and bonds
Multifamily Competition
Competition

Fannie Mae

- Fannie Mae’s Delegated Underwriting and Servicing (DUS) program allows pre-approved lenders to underwrite guaranteed loans on behalf of Fannie Mae

- Each individual loan is generally sold as a one-off DUS MBS

- Fannie Mae guarantees timely principal and interest on DUS MBS

- Loss sharing is split between the lender and Fannie Mae (e.g., 1/3 loss to lender, 2/3 to Fannie Mae)

DUS MBS

- Pass-thru cash flows versus structured cash flows on Freddie Mac K-Deals

- Fixed-rate DUS MBS is typically call protected with yield maintenance instead of defeasance as on Freddie Mac K-Deals

- Delinquencies are paid off at par by Fannie Mae after a series of missed payments, not worked out in the trust like Freddie Mac K-Deals

- Individual loans lack geographic diversity and have binary prepayment risk

GeMS

- Repackaging of DUS MBS by Fannie Mae into a REMIC structure

- Structures differ from deal to deal and based on the collateral mix compared with relatively static structures for Freddie Mac K-Deals

- GeMS likely have lower secondary liquidity. Issuance volume in 2018 was $9.68 billion versus $72.8 billion for Freddie Mac K-Deals
Investor Overview

Since the K-Deal program's inception in 2009, the investor base has grown significantly:

- 597 investors historically, with 256 participating in 2019 through Q3
- Average of 29 different accounts per transaction historically, 31 per transaction in 2019 through Q3
- 51 subordinate investors historically, with 15 participating in 2019 through Q3

Since the SB-Deal program's inception in 2015, the investor base has grown significantly:

- 345 investors historically, with 112 participating in 2019 through Q3
- Average of 28 different accounts per transaction historically, with 35 per transaction in 2019 through Q3
- 12 subordinate investors historically, with 5 participating in 2019 through Q3
- 51 new investors in 2019 through Q3, almost 6 new investors per transaction for the year through Q3

---

1 Data reflects senior bond allocations YTD for deals closed through September 30, 2019
K- and SB-Deal Investor Participation

We continue to build on our K- and SB-Deal brands – growing our securitization volumes and investor base

Investor Participation

A total of 241 accounts purchased K-Deal bonds and 161 accounts purchased SB-Deal bonds in 2018, with an average of 27 different investors on each deal (averages for K, SB and combined).
Resources – Multifamily Loan Performance Database

Multifamily Loan Performance Database (MLPD) is available on mf.freddiemac.com. It provides quarterly performance information on Freddie Mac's loans which includes nearly 35,000 loans with a total origination UPB of over $430 billion that were purchased by Freddie Mac from 1994 through the end of 2018.

Of this reported population, approximately 0.20% has defaulted by UPB through the end of 2018.

Percent Defaulted By Funding Year

1 The Multifamily Loan Performance Database (MLPD) provides historical information on a subset of the Freddie Mac multifamily loan portfolio. The MLPD comprises information regarding certain multifamily whole loan, K-Deal℠ and SB-Deal℠ loans. It excludes loans that are credit revolvers, sold book (pre-1994) loans, and negotiated transactions/structured deals and K001 and K002.

Steve Guggenmos
VP, Research & Modeling

Steve leads multifamily research at Freddie Mac. In this role he performs research related to national and market-specific multifamily conditions. His team supports the multifamily business by developing models and quantitative approaches that determine risk-based capital allocations. The models capture loan level risks and also the benefits of the diversification and structural credit support for pools of multifamily mortgages, supporting the core business strategies of Freddie Mac Multifamily.

Structural Diagram

1 As of the Cut-off Date
2 As of the Closing Date
3 Assumes a 5% CPR prepayment speed until the earlier of each underlying loan’s maturity date or first interest reset date, at which time the loan is assumed to pay in full
4 Waterfall structure will change from pro rata to sequential upon the earlier of (i) the aggregate Stated Principal Balance of the underlying loans as of the related determination date is less than or equal to 15% of the initial Principal Balance of the pool (ii) aggregate loans that are at least 60 days delinquent is greater than 3% of pool balance UPB or (iii) the Class B percentage is less than 7.5% as of the related distribution date
APPENDIX II

Our Team
Investor Relations Team

Robert Koontz,
Senior Vice President, Multifamily Capital Markets
McLean, Virginia

Robert heads the Multifamily Capital Markets team, which includes loan pricing, structuring and securitization activities for all multifamily loan purchases. He is the senior relationship manager with securities investors, credit rating agencies and the broker/dealer community. Additionally, he leads and ensures the strategic alignment between the portfolio management and the research and modeling teams within Multifamily. Robert, a veteran of the commercial mortgage-backed securities industry, has been instrumental in developing new securities structures and capital markets innovations for Freddie Mac Multifamily.

Amanda Nunnink,
Vice President, Investor Relations
Chicago, Illinois

Amanda leads the investor relations team, which markets our multifamily securities platform, including our popular K-Deals, to bond and real estate investors. Amanda joined Freddie Mac in 2012 and has significant experience in real estate finance, including over 12 years in production and sales.

For additional details, view the Capital Markets Directory
Multifamily Line of Business

Freddie Mac Multifamily operates as a fully integrated line of business and has a largely independent operating infrastructure

Debby Jenkins, Executive Vice President, Head of Multifamily Business
Debby is our business head, responsible for the success of Freddie Mac Multifamily. She leads a team of nearly 1,000 people in the Multifamily line of business, providing liquidity and stability to multifamily mortgage markets, supporting affordable rental housing, and building a sound operating business that has produced consistent economic returns at minimum risk for U.S. taxpayers. Debby is a frequent spokesperson on the condition, challenges and future of multifamily housing in the United States.

Richard Martinez
Production & Sales
Market, originate and structure loan products; ensure volume, profitability and affordable housing targets are met; manage relationships with lenders and borrowers.

Robert Koontz
Multifamily Capital Markets
Perform pricing and securitization functions related to Multifamily mortgage purchases intended for securitization and new issue securities. Manage investor relations, research and modeling, securities marketing, and relationships with bankers.

Steve Lansbury
Underwriting & Credit
Deliver consistent and high quality transactions to the firm by analyzing transaction strengths and weaknesses and approving the creditworthiness of each loan transaction. Responsible for loan level due diligence, credit functions within securitization and risk transfer processes and credit policies.

Leanne Spies
Asset Management & Operations
Manage ongoing risk and loss mitigation efforts through a risk-based approach and implement business transformation including strategic planning, systems and processes. Manage loan funding and document custody, loan servicing, seller/servicer counterparty risk, data management, governance and operational risk.

This product overview is not an offer to sell or a solicitation of an offer to buy any Freddie Mac securities. Offers for any given security are made only through applicable offering circulars and related supplements, which incorporate Freddie Mac’s Annual Report on Form 10-K and certain other reports filed with the Securities and Exchange Commission. This document contains information related to, or referenced in the offering documentation for, certain Freddie Mac mortgage securities. This information is provided for your general information only, is current only as of its date and does not constitute an offer to sell or a solicitation of an offer to buy securities. The information does not constitute a sufficient basis for making a decision with respect to the purchase and sale of any security and is directed only at, and is intended for distribution to and use by, qualified persons or entities in jurisdictions where such distribution and use is permitted and would not be contrary to law or regulation. All information regarding or relating to Freddie Mac securities is qualified in its entirety by the relevant offering circular and any related supplements. You should review the relevant offering circular and any related supplements before making a decision with respect to the purchase or sale of any security. In addition, before purchasing any security, please consult your legal and financial advisors for information about and analysis of the security, its risks and its suitability as an investment in your particular circumstances. The examples set forth above are for illustrative purposes only. Opinions contained in this document are those of Freddie Mac currently and are subject to change without notice. Please visit mf.freddiemac.com for more information. The multifamily investors section of the company’s website at https://mf.freddiemac.com/investors/ will also be updated, from time to time, with any information on material developments or other events that may be important to investors, and we encourage investors to access this website on a regular basis for such updated information.
