Best Practices for the Originate & Underwrite Webpage

Please refer to the best practices below to locate a document on the Originate & Underwrite (O&U) webpage.

The best way to search for content on the O&U webpage is through the **Quick Find** search bar. Quick Find is designed to filter and query through the resources on the page by entering any keyword, file type or the date.

This page shares resources with three business lines. To narrow down your search, select your specific business line to filter out non-related documents.

The **tooltip** contains a preview of what's inside a document. The Quick Find search is capable of filtering key words/phrases within tooltips. It's recommended to use a browser such as Google Chrome for this to work best.
