

Best Practices for the Originate & Underwrite Webpage (O&U)

As we continue to build out the O&U page with a plethora of assets, it may be more difficult to find what you're looking for. Please refer to the best practices below to locate a document:

- Forgo using the “**ctrl+f**” shortcut to search for keywords. Unfortunately, this only searches for what's visible to the browser.
- The best way to extensively search the content on the page is through the **Quick Find** search bar. Quick Find is designed to filter and query through the resources on the page by entering any keyword, file type or the date.

- This page shares resources with three business lines. To narrow down your search, select your specific business line to filter out non-related documents.
 - And/Or only show resources for:
 - Conventional and Seniors Housing
 - Targeted Affordable Housing
 - Small Balance Loan
- The **tooltip** contains a preview of what's inside a document. The Quick Find search is capable of filtering through the contents within tooltips for you. It's recommended to use a modern browser such as Chrome for this to work best.

- All resources are in order of most recently posted/updated.
- Still can't find what you're looking for? Check out the [Archived category](#).
