

Float-to-Fixed Rate Loan (Two-Plus-Seven)

More Cash Upfront, When You Need It

We call the float-to-fixed rate loan a “two-plus-seven” because payments during the first two years of the loan are floating-rate and interest-only and the following seven years of the loan are fixed rate. The Borrower receives superior cash-on-cash returns through the first two years and can lock a coupon for the life of the loan at the initial closing.
