Attitudes Towards Renting

% (2,1 Ratings – Top Favorable Ratings for the Statement)

Renting fits my current lifestyle

Owning a home fits within my current lifestyle

Renting Fits My Current Lifestyle

% (4,5 Ratings – Top Favorable Ratings for the Statement)

(Base = Total Renters)

The Majority of Renters See Renting as a Strategic Choice at Many Life Stages

Q: Following are several pairs of statements. For each pair, please select the point on the scale that best reflects your opinion..

Attitudes Towards Renting

% (2,1 Ratings – Top Favorable Ratings for the Statement)

Renting is a strategic choice that makes sense at many life stages

Renting is only for the young and/ or those who move often

Renting Is a Strategic Choice That Makes Sense At Many Life Stages

% (4,5 Ratings – Top Favorable Ratings for the Statement)

(Base = Total Renters)

Seven Out of Ten Renters Believe Renting Is More Affordable Than Owning

Q: Overall, which do you think is more affordable for you today?

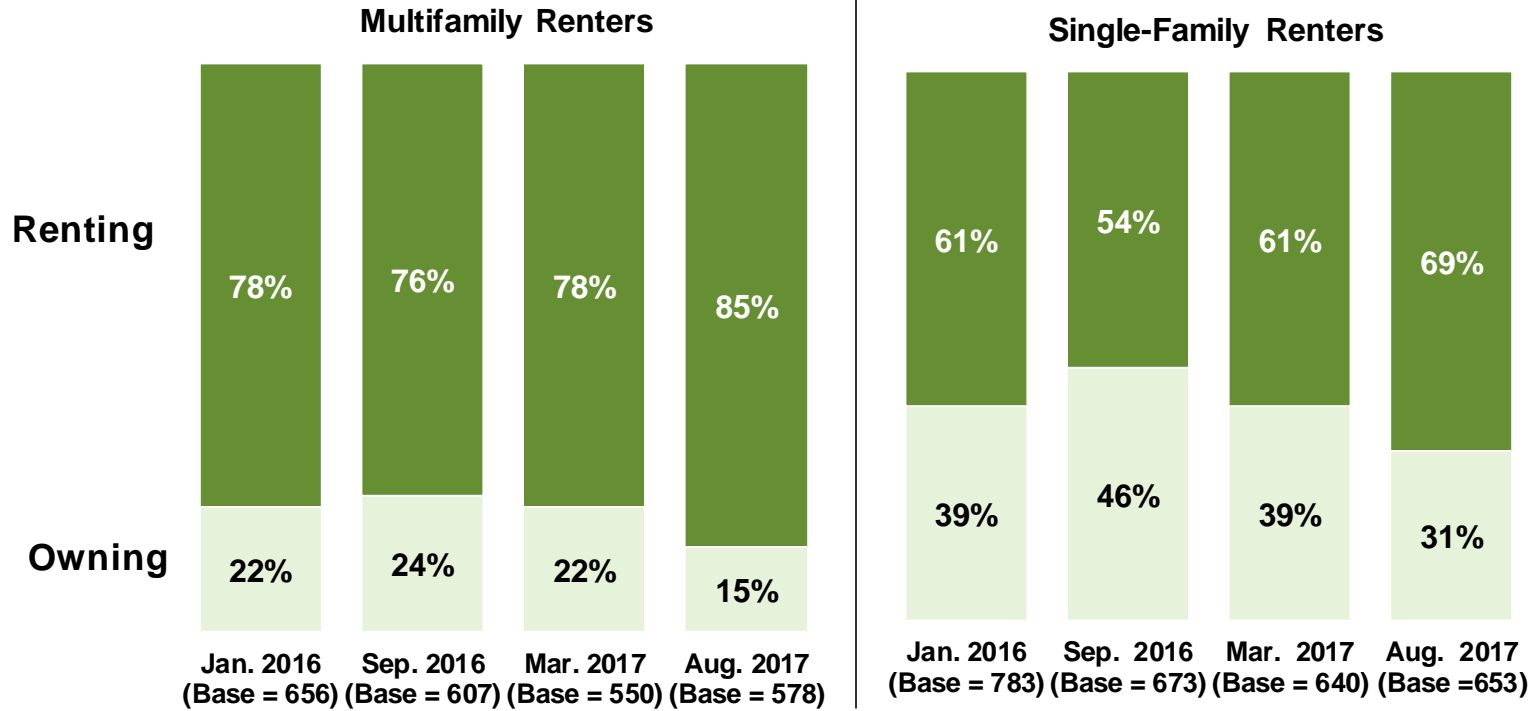

(Base=Total Renters)

Both Multifamily and Single-Family Renters Consider Renting as More Affordable

Q: Overall, which do you think is more affordable for you today?

Excludes renters who selected "Other" type of rental dwelling given extremely small sample size.

Perceptions of Renting Being More Affordable Increased Across All Generations

Q: Overall, which do you think is more affordable for you today?

■ September 16 ■ March 2017 ■ August 2017

Renting Is More Affordable

Please refer to table Appendix C for detailed sample size information.

(August 2017 Base = 438 Millennials, 330 Gen X, and 341 Baby Boomers)
Excludes "Mature" generational renters (Age 69+) given extremely small sample size.

A Quarter of Renters Believe Renting Will Be More Affordable for Them in the Next 12 Months

Q: Over the next 12 months, do you think each of the following will be...? Even if you aren't planning to buy or rent a home in the next 12 months, we are still interested in your opinion.

Views on Affordability in the Future

(Base=Total Renters)

There's an Increase in the Number of Renters Who Say Renting Is a Good Choice for Now

Q: Which one of these statements best reflects your views about why you are currently renting?

Renting is a good choice for me now...

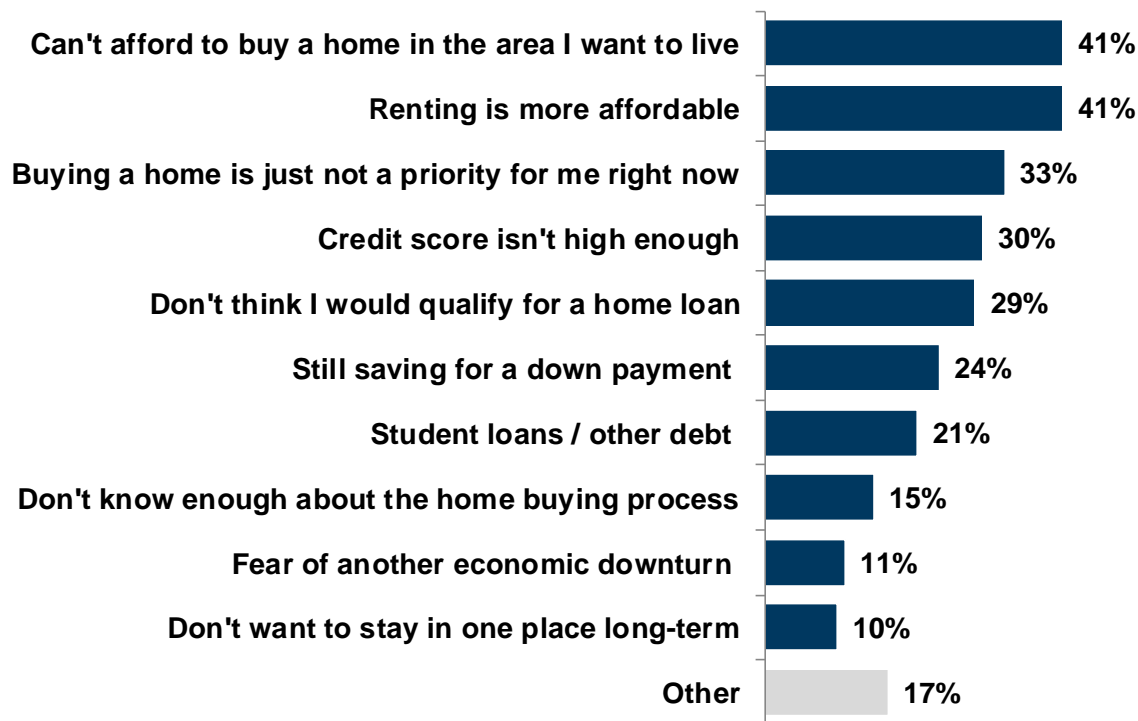

(Aug. 2017 Base = 456 Millennials, 361 Gen X and 420 Baby Boomers / 578 Multifamily Renters and 653 Single-Family Renters).
Excludes "Mature" generational renters (Age 69+) given extremely small sample size.

While Many Rent For Financial Reasons, a Third Say Buying a Home Is Not a Priority Right Now

Q: Which of the following are reasons why you currently rent instead of own your primary residence? Please select all that apply.

Reasons For Renting Instead of Owning *% Selected*

(Base = 1,059 Renters who did not have to postpone to purchase a home)

Millennials Can't Afford to Buy in the Area Where They Want to Live

Q: Which of the following are reasons why you currently rent instead of own your primary residence? Please select all that apply.

(August 2017 Base = 120 Young Millennials, 212 Older Millennials, 268 Gen X and 368 Baby Boomers who did not have to postpone buying a home)

Multifamily Renters More Likely to Cite Affordability as a Reason For Renting

Q: Which of the following are reasons why you currently rent instead of own your primary residence? Please select all that apply.

Multifamily Renters

50%

Renting is more affordable

Regional Differences

Renters Living in the West Significantly More Likely to Say Housing Supply Is Lower Compared to a Year Ago

Q: Thinking about the housing market in your area, how would the following compare to a year ago?

(Base=Total Renters)

Seven in Ten Renters Living in the West Say Housing Prices Are Higher Compared to a Year Ago

Q: Thinking about the housing market in your area, how would the following compare to a year ago?

(Base=Total Renters)

Renters in the Midwest Are Slightly More Positive About Renting

Q: Following are several pairs of statements. For each pair, please select the point on the scale that best reflects your opinion...

Favorable Attitudes Towards Renting

% (1,2 Ratings – Top Favorable Ratings for the Statement)

(Base = Total Renters)

Renters Living in the South Feel More Strongly About Home Ownership Values

Q: Following are several pairs of statements. For each pair, please select the point on the scale that best reflects your opinion...

Favorable Attitudes Towards Home Ownership % (4,5 Ratings – Top Favorable Ratings for the Statement)

■ Northeast ■ South ■ Midwest ■ West

(Base = Total Renters)

Feelings of Not Being Able to Afford a Home Is More Prevalent in The West

Q: Over the next 12 months, do you think each of the following will be...? Even if you aren't planning to buy or rent a home in the next 12 months, we are still interested in your opinion.

Buying a Home Will Become Less Affordable For Me *% Selected By Region*

Please refer to table Appendix C for detailed sample size information.

(Base=Total Renters)

Likelihood to Ever Purchase a Home

By Region

Q: How likely, if at all, do you think it is that you will ever purchase/own a home?

By Region

Please refer to table Appendix C for detailed sample size information.

(Base=Total Renters)

Fear of Eviction Is Rising Particularly Among Renters Living in the West

Q: Given the recent changes in your rent, please indicate how much you agree or disagree with each statement regarding what, if any, changes you have had to make or how this change has impacted you. I fear eviction because I can no longer afford rent.

Northeast (Base=118)	South (Base=88)	Midwest (Base=165)	West (Base=154)
20%	29%	20%	37%

(Base = Renters who indicate they have experienced a rent increase in the past two years)

Appendix

Background and Methodology

- Freddie Mac has commissioned Harris Poll to survey more than 4,000 U.S. adults to get their perceptions about renting in the post financial crisis marketplace.
- Freddie Mac has conducted this research to learn about renters':
 - » Preferences towards the housing choices available to them;
 - » Financial views and behavior;
 - » Views on renting and owning;
 - » The drivers for their housing decisions.

- Harris Poll on behalf of Freddie Mac conducted an online survey within the United States via its QuickQuery product five different times between August 2014 and August 2017. Below are the last four waves ordered by date:
 - » The August 2017 survey was conducted in two waves between August 28 to August 30, 2016 among 4,459 adults (aged 18 and over), among which 1,342 were renters.
 - » The March 2017 survey was conducted in two waves between March 3 to March 6, 2016 among 4,283 adults (aged 18 and over), among which 1,282 were renters.
 - » The September 2016 survey was conducted in two waves between August 31 to September 6, 2016 among 4,105 adults (aged 18 and over), among which 1,362 were renters.
 - » The January 2016 survey was conducted in two waves between January 26 to February 1, 2016 among 4,063 adults (aged 18 and over), among which 1,527 were renters.
 - » The October 2015 survey was conducted between October 8-12, 2015 among 2,020 adults (aged 18 and over), among which 703 were renters.
- For all surveys, figures for age, sex, race/ethnicity, education, region and household income were weighted where necessary to bring them into line with their actual proportions in the population. Propensity score weighting was used to adjust for respondents' propensity to be online.
- All sample surveys and polls, whether or not they use probability sampling, are subject to multiple sources of error which are most often not possible to quantify or estimate, including sampling error, coverage error, error associated with nonresponse, error associated with question wording and response options, and post-survey weighting and adjustments. Therefore, the words "margin of error" are avoided as they are misleading. All that can be calculated are different possible sampling errors with different probabilities for pure, unweighted, random samples with 100% response rates. These are only theoretical because no published polls come close to this ideal.
- Respondents for this survey were selected from among those who have agreed to participate in our surveys. The data have been weighted to reflect the composition of the adult population. Because the sample is based on those who agreed to participate in the online panel, no estimates of theoretical sampling error can be calculated.
- Due to rounding, percentages may add up to 100% +/-1%
