SBL Update

Freddie Mac Delegated Inspections

We have updated the [SBL Inspection Request Template](#) to include questions that may help us determine if a Freddie Mac inspection can be delegated. We recognize that some of this information may not be available during scheduling, however, please provide as much information as possible. The delegation is not guaranteed and an in-person inspection conducted by Freddie Mac may still be required if additional issues arise post delegation.

Please begin using the new form immediately for any unscheduled or incomplete property inspections, which can be found on our Originate & Underwrite webpage [under the Inspections tab](#).

Labor Day

We hope you all have a great Labor Day weekend! Freddie Mac offices will be closed on Monday, September 2.
