Freddie Mac Multifamily is a mission-driven company and supporting affordable housing is in our DNA. Since inception, we’ve worked diligently to provide safe and affordable rental housing for millions of Americans. In 2019, over 86% of the units we financed were affordable to moderate- and low-income families at or below 100% of the area median income (AMI).

**Social Bonds Program Overview**

We confront persistent affordable and workforce housing challenges through innovative thinking that helps expand access to housing by involving all areas of financing. To increase our impact and attract capital to support social impact initiatives, we are introducing Social Bonds to target opportunities that go deeper into our mission of supporting affordable housing.

Our Social Bonds proceeds will be dedicated to either:

- providing liquidity to financial institutions with a distinct mission of addressing housing affordability challenges; or
- providing financing to housing for targeted underserved populations considered to be among the most vulnerable

Our Social Bonds Framework aligns with the four core components of the International Capital Market Association’s (ICMA) Social Bond Principles.

- Use of Proceeds
- Process for Evaluation and Selection
- Management of Proceeds
- Reporting

**2020 Deal Pipeline**

Use of Proceeds

Institutions receiving liquidity and properties financed from Social Bonds proceeds are intended to foster opportunities for residents and their communities, in addition to providing affordable housing to low- to moderate-income families.

The proceeds of Freddie Mac Multifamily’s Social Bonds are used to:

- Provide liquidity to social impact financial institutions financing multifamily affordable housing; or
- Finance multifamily properties originated by our Optigo® network with one or more of the following characteristics:
  i. Affordable to an underserved population
  ii. Owned and operated by targeted sponsors and are affordable to low-to-moderate-income families

Process for Project Evaluation and Selection

In general, Social Bonds are backed by newly acquired mortgages or seasoned mortgages underwritten to Freddie Mac’s industry-leading underwriting standards. I. Provide liquidity to:
   - Community Development Financial Institutions (CDFIs)

   - Small Financial Institutions (SFIs) operating in underserved markets

II. Finance loans for:
   - Properties for underserved populations (persons with disabilities, aging population, refugees and others)

   - Housing for extremely low-income households (at or below 30% AMI)
   - Minorities, Women and Disabled Individuals-Owned Borrowers (MWDOB)
   - The Rental Assistance Demonstration (RAD) program
