

SOFR Update

We're less than two weeks away from our September 1 SOFR transition.

Reminder: [Click here](#) for the **critical dates** to get your deals across the finish line. It's essential for lenders to engage their relationship managers ASAP with any concerns, as no exceptions can be granted.

And don't forget about our final training **Tuesday, August 25**, for your production and underwriting teams. It's now a Teams Live session, so please make sure to add the **new link** to your calendar:
